

GREEN COFFEE BEAN EXTRACT

Newgate Labs' Green Coffee Bean Extract is a popular supplement which helps with shedding unwanted kilograms and prevents weight gain through the use of two natural compounds found in green coffee bean extract: chlorogenic acid and caffeine. This supplement contains polyphenols which help decrease oxygen-free radicals inside the body and act as an excellent source of antioxidants.

Our supplement provides benefits that cannot be found in daily coffee drinks due to the roasting process that coffee goes through before consumption. It helps boost the body's metabolic processes, burn more calories, improve glucose levels and reduce blood pressure.

MAIN APPLICATION

Newgate Labs' Green Coffee Bean Extract may be an effective weight loss aid. It may also promote blood sugar regulation, improve critical health markers (such as blood pressure and cholesterol) and provide antioxidants. That said, people do not need to use weight loss supplements for natural, healthy weight loss.

RASPBERRY KETONES & GARCINIA CAMBOGIA

Newgate Labs' all-natural Raspberry Ketones and Garcinia Cambogia supplement triggers fat burn and absorption, resulting in decreased weight gain. Garcinia cambogia (an appetite suppressing fruit) inhibits the body's lyase enzymes, resulting in fewer carbohydrates being transformed into sugar and the burning of fat cells.

Our supplement is excellent all-natural way of preventing weight gain, reducing food cravings, improving mood and energy levels as well as burning fat in a safe and effective way.

MAIN APPLICATION

Raspberry ketones can be an all-natural way to manage your appetite, boost energy and more. Raspberry ketones supplements are often used to support those who are looking to lose weight in a healthy way. When paired with Garcinia Cambogia, which helps in suppressing appetite, the effects of these supplements are optimized.

APPLE CIDER VINEGAR

Newgate Labs' Apple Cider Vinegar supplement is made from the yeast found in apple cider vinegar, which contains enzymes and good bacteria that help support a healthy metabolism. This product can help improve heart health through reducing cholesterol levels and suppressing food cravings. It may also help lower blood sugar levels and manage diabetes.

Apple cider vinegar may be helpful for people looking to lose weight as it increases feelings of fullness and helps them eat fewer calories. It also helps detox and cleanse the body and improves gut health and digestion.

MAIN APPLICATION

For centuries, apple cider vinegar has been used to treat a variety of health ailments. It is also a popular disinfectant and natural preservative. Research points to it as a way to lower blood sugar and help with weight loss. Over the years, it has been used as a home remedy for health and beauty purposes such as getting rid of dandruff.

GREEN TEA 850 MG

Newgate Labs' Green Tea supplement is a great source of antioxidants that helps the body neutralize free radicals and toxins, protecting cells and molecules from damage. It may help reduce blood pressure, improve blood fat levels and promote heart health. This supplement may also help the body shed unwanted kilograms as it causes it to more effectively burn calories.

Our supplement helps improve heart and brain health, liver function and promotes weight loss. It may be particularly effective at reducing abdominal fat.

MAIN APPLICATION

Green tea extract can promote weight loss, blood sugar regulation and exercise recovery. It can also help keep the skin and liver healthy. Whether you want to improve your general health or decrease your risk of disease, green tea extract is an easy way to add health-boosting antioxidants to your diet.

ADDITIONAL INFORMATION

GARCINIA CAMBOGIA

Newgate Labs' Garcinia Cambogia supplement helps in preventing fat formation, improves endurance while exercising and works to increase serotonin (a chemical that affects happiness and wellbeing) levels in the brain. This compound is known to inhibit lyase enzymes which results in fewer carbohydrates turning into sugar (for better regulation of blood sugar) and increases the burning of fat (which means that less fat is stored in the body).

Our supplement helps the body to lose unwanted weight, reduce food cravings and improve energy levels. It also aids in decreasing LDL (bad cholesterol) and helps in increasing HDL (good cholesterol).

MAIN APPLICATION

Garcinia Cambogia may help in suppressing appetite. It also blocks the production of new fats in your body and lowers cholesterol levels as well as blood triglycerides in overweight people. Garcinia Cambogia may have some anti-diabetes effects. It may help protect against stomach ulcers and digestive tract damage as well.

ADDITIONAL INFORMATION

AFRICAN MANGO

Newgate Labs' African Mango supplement is derived from the seeds and pulp of the African mango fruit which is high in amino acids. This supplement helps regulate body systems and suppress food cravings. According to many studies, using African mango can help safely fight against obesity, high cholesterol and blood sugar levels.

Our supplement may help control appetite and regulate blood sugar levels in the body to reduce unwanted weight. This supplement works to lower LDL (bad cholesterol); it also acts as both an antimicrobial and antioxidant.

MAIN APPLICATION

African Mango seeds are rich in soluble fibres and provide important dietary elements like healthy fatty acids and plant proteins. Phenolic compounds found in the seed also act as powerful antioxidants and may help eliminate harmful free radicals from the body. This supplement may also help support weight loss.

Natural Supplement to Support Overall Health and Weight Loss

WHITE KIDNEY BEAN EXTRACT

Newgate Labs' White Kidney Bean Extract helps support weight loss, increase energy, enhance athletic performance and aid in regulating intestinal function and digestion.

White kidney beans are known to fight the effects of alpha-amylase enzymes, which cause a spike in glucose levels by speeding up the breakdown of carbohydrates into sugar. White kidney bean extract acts as a direct carb blocker and helps reduce the accumulation of carbohydrates in the body's fat tissue.

MAIN APPLICATION

White kidney bean extract is said to offer a slew of health benefits including weight loss, appetite control as well as decreasing abdominal fat. Despite the fact that there is some promising research that white kidney bean extract may provide some help with weight management, more research is still needed.

ADDITIONAL INFORMATION

MATCHA AND GREEN TEA

Newgate Labs' Matcha and Green Tea capsules may enhance energy and mental focus. Like green tea, matcha comes from the Camellia Sinensis plant. Matcha contains the nutrients from the entire tea leaf, like antioxidants, amino acids, vitamins, and minerals that deliver health. Matcha is rich in catechins, a class of plant compounds that act as natural antioxidants which can help stabilise harmful free radicals.

Newgate Labs' Match and Green Tea Supplement helps protect the liver, boost brain function and promote heart health. It may also aid in weight loss by helping increase metabolism and fat burning.

MAIN APPLICATION

Matcha comes from the same plant as green tea, but since it is made from the entire leaf, it packs in a more concentrated amount of antioxidants and beneficial plant compounds. Matcha and green tea both have a variety of health benefits and may help enhance weight loss and decrease the risk of heart disease.

ADDITIONAL INFORMATION

Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule per day after a meal

ACAI BERRIES

Newgate Labs' Acai Berries supplement is concentrated with powerful antioxidants. Acai itself is rich in amino acids, fatty acids and other beneficial vitamins and minerals. Acai berries are a popular superfood that is native to the rainforests of Central and South America. In its natural state, the acai fruit usually spoils quickly. However, taken in the form of supplements, they can be useful for a much longer time. Acai berries are well-known for lowering hypertension and LDL (bad cholesterol) as well as helping the body fight against diabetes.

Our supplement utilises acai, which acts as a powerful antioxidant and decreases LDL (bad cholesterol) and hypertension.

MAIN APPLICATION

Acai berries contain healthy fats as well as low amounts of sugar and lots of trace minerals and plant compounds including anthocyanins. Acai is very rich in antioxidants, boasting three times the amount found in blueberries. Furthermore, Acai may counteract the damaging effects of inflammation and oxidation in the brain.

ADDITIONAL INFORMATION

Cholesterol Balancing and Weight Fighting Supplement

KONJAC GLUCOMANNAN

Glucomannan, known as a soluble fibre derived from Amorphophallus Konjac, increases transit time of food and prolongs gastric emptying time, which increases satiety, reduces body weight and decreases the ingestion of foods that can increase cholesterol levels and glucose concentrations. This supplement contains ingredients that may help shed unwanted kilograms through reducing appetite and cravings.

Our supplement is suitable for those looking to reduce weight gain, cholesterol levels and blood pressure. It also helps boost metabolism, energy levels and overall health.

MAIN APPLICATION

Glucomannan might work in the stomach and intestines by absorbing water to form a bulky fibre which treats constipation. It might also slow the absorption of sugar and cholesterol in the gut, helping control sugar levels in people with diabetes and reduce cholesterol levels.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Take 2 tablets with 1-2 glasses of water, 30 minutes before your meal, 3 times per day

CAFFEINE 200 MG

Caffeine supplements stimulate the central nervous system to help people stay awake and focused. Newgate Labs' Caffeine supplement provides a quick boost to short-term energy and focus. The caffeine works as a fast-acting stimulant that increases the activity of the brain and nervous system.

Our supplement is especially popular with students and athletes as it enhances performance, concentration and focus. It may also help ease migraines and headaches.

MAIN APPLICATION

Caffeine supplements are known to stimulate the central nervous system to help people stay awake and focused. They also improve athletic performance and help relieve migraines and tension headaches. Caffeine is excellent in burning excess fat, it helps sustain the body for exercises or strenuous activities.

ADDITIONAL INFORMATION

Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 tablet per day with water

EVENING PRIMROSE OIL

Newgate Labs' Evening Primrose Oil supplement contains primrose oil that is extracted from the seeds of North American flowers and is rich in Omega-6 fatty acids.

Our supplement is effective in treating skin issues such as acne and eczema and helps encourage more radiant, youthful skin. The Evening Primrose Oil supplement could help ease Premenstrual Syndrome (PMS) and menopausal hot flashes for women and help improve heart health

MAIN APPLICATION

Our Evening Primrose Oil contains gamma-linolenic acid, a fatty acid that has anti-inflammatory effects; it helps acne by reducing skin inflammation and the number of skin cells that cause lesions and may help the skin retain moisture. It may reduce the severity of hot flashes, one of the most uncomfortable side effects of menopause.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule per day (for adults)

MILK THISTLE 500 MG

Newgate Labs' Milk Thistle supplement is derived from milk thistle plants native to the Mediterranean. It may help promote liver health through supporting the liver's production of glutathione, which is an antioxidant that helps the body neutralize toxins and free radicals. It may also work to promote brain and bone health and lower blood sugar levels and blood pressure.

Our supplement is perfect for those who are looking to improve liver, brain and bone health.

MAIN APPLICATION

Milk thistle, also known as Silybum Marianum, has been used as a herbal healer since ancient Greek times. In the middle ages, the leaves were used in salads, but these days the seeds are most commonly used in supplements. These seeds are rich in silymarin which fights free radical damage and has an anti-inflammatory effect.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule per day with water

MILK THISTLE 2,700 MG

Milk thistle is an herbal remedy derived from the milk thistle plant, also known as Silybum marianum. This prickly plant has distinctive purple flowers and white veins, which traditional stories say were caused by a drop of the Virgin Mary's milk falling onto its leaves. The active ingredients in milk thistle are a group of plant compounds collectively known as silymarin.

Among other things, Newgate Labs' Milk Thistle 2,700 mg may help promote liver health by supporting the production of glutathione, which is an antioxidant that helps the body neutralize toxins and free radicals. It may also work to promote brain and bone health.

MAIN APPLICATION

The silymarin extracted from milk thistle is known to have antioxidant, antiviral and anti-inflammatory properties. In fact, it has traditionally been used to treat liver and gallbladder disorders, promote breast milk production, and even protect the liver from snake bites, alcohol and other environmental poisons.

TURMERIC 700 MG WITH BLACK PEPPER

Newgate Labs' Turmeric and Black Pepper supplement helps improve overall health and wellbeing as it possesses many anti-inflammatory, antioxidant and disease fighting qualities. Turmeric, known as "the golden spice," is a plant native to Asia and Central America that has been used for thousands of years to treat various health conditions. Coupling turmeric with black pepper works to enhance its benefits through increased curcumin absorption.

Our supplement may help boost the body's immune system and fight inflammation. It also reduces pain, supports digestion and increases energy levels.

MAIN APPLICATION

Turmeric and black pepper each has health benefits, due to the compounds curcumin and piperine. As piperine enhances curcumin absorption in the body up to 2,000%, combining the spices magnifies their effects. They may reduce inflammation and improve digestion, particularly in supplement form.

LUTEIN

Newgate's Lutein supplement helps improve eye and cardiovascular health. Lutein, also known as "the eye vitamin," may help support eye health and vision as well as prevent age-related macular disease (the leading cause of blindness and vision impairment). As a powerful antioxidant, Lutein helps suppress inflammation in the eyes, defend against oxidative stress and free radicals, protect the eye tissue from sunlight damage and reduce glare impairment, among other benefits.

Our supplement is a premier choice for those looking to support their overall eye health and vision and prevent age-related macular disease.

MAIN APPLICATION

Lutein is a type of carotenoid with antioxidant properties. It provides various health benefits. The most researched benefit is related to eye health, but it has also been linked to heart health and may improve cognitive function. It may improve cardiovascular health and neutralize cell damaging free radicals and toxins.

ADDITIONAL INFORMATION

BEETROOT EXTRACT

The leaves and roots of beets are known as being rich in nutrients, including antioxidants that may help fight cell damage and reduce the risk of heart disease. Beets are one of the few vegetables that contain betalains, a powerful antioxidant that gives them their vibrant color. Betalains help reduce inflammation and may protect against cancer and other diseases.

Our supplement may help your heart and lungs work better during exercise. Nitric oxide from beets increases blood flow to your muscles. Some athletes consume beetroot when exercising to improve their performance.

MAIN APPLICATION

Beetroots are loaded with vitamins and minerals yet low in calories and fat. They are also a good source of several key nutrients, including folate, manganese, and copper. Beetroots contain a high concentration of nitrates, which can help lower your blood pressure levels. This may lead to a reduced risk of heart disease and stroke.

ADDITIONAL INFORMATION

D-MANNOSE 1,000 MG

Newgate Labs' D-Mannose 1,000 mg supplement is recommended for people with an inherited disorder: carbohydrate-deficient glycoprotein syndrome type 1B. It is also used for infections of the kidney, bladder or urethra (urinary tract infections or UTIs). D-mannose helps treat the deficiencies resulting from a genetic defect that causes an abnormal breakdown and production of mannose.

D-mannose can help prevent certain kinds of bacteria from sticking to the walls of the urinary tract and causing infection. It is a type of sugar, but unlike other types of sugar, it is actually good for your health.

MAIN APPLICATION

Newgate Labs' D-Mannose 1,000 mg supplement helps reduce discomfort in the urinary tract system, supports bladder health and boosts the body's immune system. D-mannose has many medicinal properties that include antiviral and antibacterial actions.

ALPHA LIPOIC ACID

Newgate Labs' Alpha Lipoic Acid supplement has a lot of benefits that can enhance one's overall health and wellness. Alpha Lipoic acid is a naturally occurring compound in the body that acts as an antioxidant, helping to fight free radicals in the body that lead to premature aging of cells

Our supplement helps improve overall health and wellbeing through fighting free radicals, promoting weight loss, reducing skin aging and inflammation, promoting healthy nerve function as well as increasing energy levels.

MAIN APPLICATION

Alpha Lipoic acid, an organic compound with antioxidant properties, is made in small amounts by your body. It is also found in foods such as red meat, carrots, spinach, beets, broccoli, potatoes, in addition to supplements. It may benefit diabetes, skin aging, memory, heart health and weight loss.

ADDITIONAL INFORMATION

FLAXSEED OIL 1,000 MG

Flaxseeds are known for their many health benefits. The latter include providing a hearty dose of protein and fibre, aiding in weight control and reducing appetite. Given their stellar nutritional profile, it is no wonder that flaxseed oil is also packed with similar health benefits. Flaxseed oil is made from ground and pressed flax seeds.

Newgate Labs' Flaxseed Oil 1,000 mg supplement is an excellent source of protein and fibre for the body; it improves skin health and helps reduce cancer cell growth. It is also rich in Omega-3 fatty acids that improve cardiovascular health, reduce inflammation and protect brain cells against aging.

MAIN APPLICATION

Flaxseed oil is made from ground and pressed flaxseeds. It is known for its many health benefits, and may help in lowering inflammation, preventing heart disease as well as reducing cancer risks. Flaxseed oil contains Omega-3 fatty acids, thus it may reduce inflammation.

ADDITIONAL INFORMATION

KAVA ROOT EXTRACT

Newgate Labs' Kava Root Extract supplement helps treat a number of conditions that may include anxiety, stress, trouble sleeping as well as Premenstrual Syndrome (PMS) symptoms. Kava is a plant native to the South Pacific Islands and has been used over time for its healing and health benefits. Studies suggest that it can help protect neurons from damage, decrease anxiety and aid in sleep due to its calming effects.

Our supplement is recommended for people struggling with anxiety and sleeping problems. Ingesting Kava in its supplement form is ideal as many people do not enjoy its taste.

MAIN APPLICATION

Native to the South Pacific Islands, Kava has been used in ceremonies to bring about a state of calm and relaxation. Kavalactones, the compounds found in the Kava root, are believed to have mood-altering properties that can help with treating anxiety and finding good sleep.

ADDITIONAL INFORMATION

KUDZU 600 MG

Kudzu is a plant native to several Asian countries which include China, Japan and Korea. Its root, the Japanese arrowroot, has been used for many years in Eastern medicine. Newgate Labs' Kudzu supplement has several potential health benefits which include helping treat liver damage. It is also rich in antioxidants, compounds that protect cells from oxidative stress that can lead to disease.

Our supplement is know to help alleviate menopausal symptoms, reduce inflammation, promote heart health as well as alleviate severe headaches and reduce alcohol dependence.

MAIN APPLICATION

For over 2,000 years, people have been using Kudzu root in traditional Chinese medicine for purposes like treating fevers, diarrhea, diabetes and heart diseases. Our Kudzu supplement can also be used to treat alcohol hangovers, upset stomachs, high blood pressure and common colds and flu.

ADDITIONAL INFORMATION

ECHINACEA 500 MG

Echinacea is one of the most popular herbs worldwide, it is also called purple coneflower. It has been used by native Americans for centuries to treat a range of ailments such as the common cold or flu, pain, inflammation, migraines and other health issues. This plant is rich in plant compounds that function as antioxidants which help defend your cells against oxidative stress, a state that has been associated with chronic diseases such as diabetes and heart diseases.

Our supplement helps boost the immune system, lower blood sugar, reduce anxiety, treat inflammations and protect against cancer.

MAIN APPLICATION

The Echinacea plant is native to North American; it mainly grows in prairies and open woody areas. It contains a significant variety of active compounds that have many health benefits which include: decreasing inflammation, improving immunity and reducing blood sugar levels.

ADDITIONAL INFORMATION

GRAPESEED EXTRACT

Despite being bitter-tasting, grape seeds have very high antioxidant content, making them potent in helping prevent disease and protect against oxidative stress, tissue damage, and inflammation.

Newgate Labs' Grapeseed Extract supplement procures many benefits to overall health and wellness. It may help reduce blood pressure, especially in young to middle-aged people and those who have excess weight. Grapeseed extract can also help improve blood flow, reduce oxidative damage, improve collagen levels and bone strength, inhibit infectious growth and protect the liver.

MAIN APPLICATION

Grapes, along with their leaves and sap, have been used as traditional treatment in Europe for thousands of years. Grapeseed extract is derived from the ground-up seeds of red wine grapes and is used to treat health issues such as high cholesterol and poor circulation. It is also used for its antioxidant properties.

ADDITIONAL INFORMATION

GRAPESEED EXTRA

Newgate Labs' Grapeseed Extra supplement provides an additional dose of grape seed, known to be high in antioxidants, which makes them effective in preventing ailments and protecting against oxidative stress, tissue damage and inflammation.

Our Grapeseed Extra supplement has many health and wellness benefits which include reduced blood pressure, especially among overweight individuals Grapeseed extract can also help improve blood flow, reduce oxidative damage, increase collagen levels and support bone strength, all the while inhibiting infectious growth and protecting the liver.

MAIN APPLICATION

The leaves and seeds of grapes have been used for thousands of years as traditional remedies and medicines across Europe. Grapeseed extract is made by grounding seeds of red wine grapes. The extract is used for its antioxidant properties and to treat a plethora of ailments, most popularly health issues such as cholesterol and poor circulation in the body.

ADDITIONAL INFORMATION

RHODIOLA ROSEA

Rhodiola Rosea is a herb that grows in the cold mountainous regions of Europe and Asia. Its roots are considered adaptogens, which means that their consumption can help the body adapt to stress. It has also been used to treat anxiety.

Our supplement is used for its many health benefits. It helps decrease stress as it has been shown to improve symptoms of burnout. It can also help with fatigue, reduce symptoms of depression, improve brain function and exercise performance, as well as help manage diabetes. It is also purported to have anticancer properties.

MAIN APPLICATION

Found in mountainous areas, Rhodiola Rosea is known as arctic root or golden root, owing to its yellow flowers. Its root contains more than 140 active ingredients, the most potent being Rosavin and Salidroside. People in Russia and Scandinavian countries have used it for centuries to treat anxiety, fatigue and depression.

ADDITIONAL INFORMATION

CAPSICUM 500 MG

Newgate Labs' Capsicum 500 mg may help in weight loss as well as reduce inflammation and relieve pain. Capsaicin, a compound found in chili peppers that gives them their spicy kick, may offer numerous benefits when taken as a supplement.

Our supplement plays a role in weight management, as research has consistently shown Capsaicin's ability to reduce appetite sensations, and calorie intake as well as increase metabolic rate, fat burning and weight-loss. It may also have anti-inflammatory properties.

MAIN APPLICATION

Capsaicin, a compound in hot peppers that causes the burning sensation, offers numerous benefits when taken as a supplement. It helps promote weight loss, reduce inflammation and relieve pain when applied topically.

ADDITIONAL INFORMATION

ANTIOXIDANT BOOST

Newgate Labs' Antioxidant Boost contains 4 of the most potent antioxidants; vitamins A, C, E and Selenium which may help boost the immune system and support overall health. Antioxidants target free radicals, molecules that can react with other molecules and damage them. Free radicals are damaging because their structure is unstable, meaning that they are highly reactive.

Vitamin C is vital for Iron absorption. Vitamin E works with vitamin C to maintain antioxidant levels, with its primary function being to protect lipids, DNA and protein from oxidative damage. Selenium is a mineral that aids in the maintenance of normal hair and nails.

MAIN APPLICATION

Antioxidants benefit your health by cleaning free radicals out of your bloodstream. They have many health benefits; they may help reduce the signs of aging by minimizing wrinkles in addition to preserving the texture of the skin. Antioxidants may help prevent a number of degenerative age-related diseases.

ADDITIONAL INFORMATION

OV VISION CARE

Newgate Labs' OV Vision Care supplement contains a formulation of bilberry extract, grapeseed and marigold flower which may play a role in maintaining a healthy and sharp vision.

Bilberries contain high levels of anthocyanins which are associated with antioxidants. They help promote a healthy micro-vasculature that surrounds the eye, thus stimulating the circulation of fluid. Grapeseed contains antioxidants that protect tissues by scavenging harmful free radicals which damage DNA, proteins and lipids. It increases cognitive function. The marigold flower can also help boost overall eye health.

MAIN APPLICATION

Newgate Labs' OV Vision Care contains a combination of grapeseed extract, bilberry and the marigold flower which when taken together may help support vision and overall eye health. The antioxidant properties of the components of this supplement can help fight harmful radicals and maintain eye health.

ADDITIONAL INFORMATION

OV STUDY BOOST

Newgate Labs' OV Study Boost tablets contain a combination of five ingredients: Iron, Zinc, Ginkgo Biloba, Ginseng and green tea extract.

While Iron contributes to the reduction of fatigue, Zinc is required for the synthesis of protein, a nutrient that is essential for the production of enzymes which play a role in cognition. Ginkgo Biloba contains two active ingredients that are thought to increase blood circulation within the brain. This contributes to cognitive function and brain performance. Ginseng helps reduce stress as it produces a calming effect in situations of pressure. Green tea contributes to the reduction of fatigue, it also improves cognitive function and attention focus.

MAIN APPLICATION

Newgate Labs' OV Study Boost contains a combination of vitamins and minerals that help support concentration and cognitive function. Combining five main ingredients, this supplement helps reduce fatigue. It also creates the protein that contributes to proper cognitive function and brain performance.

ADDITIONAL INFORMATION

IMMUNITY BOOSTER

Newgate Labs' Immunity Booster supplement contains a combination of Vitamin C and Zinc that help support overall wellness and the body's immune system. As an antioxidant, Vitamin C helps fight free radicals in the body which can lead to premature aging of the cells. The Zinc in this supplement is also essential for the proper growth of cells and may support the body's immune system.

Our supplement is an excellent choice for those who want to boost their overall health and immunity. It helps the body fight against the common cold and reduces the risk of age-related eye diseases.

MAIN APPLICATION

Newgate Labs' Advanced Immunity Booster allows you to enjoy a combination of vitamin C and Zinc which have many health benefits related to strengthening immunity and supporting the growth, development and repair of all body tissues as well as maintenance of bones, cartilage and teeth.

ADDITIONAL INFORMATION

IMMUNITY BOOSTER

Newgate Labs' Immunity Booster supplement contains a similar but stronger combination of Vitamin C and Zinc made to help support overall wellness and immunity. Being a powerful antioxidant, vitamin C can strengthen your body's defences by helping fight free radicals. Zinc is also a mineral that is essential for many of the body's normal functions and systems, including the immune system, wound healing, blood clotting and many others.

Our supplement is an excellent choice for those who want to boost their overall health and immunity. It helps the body fight against the common cold and reduces the risk of age-related eye diseases.

MAIN APPLICATION

Vitamin C and Zinc have many health benefits, including boosting immunity, reducing the risk of age-related eye diseases and helping wounds heal. Vitamin C also helps in the absorption of plant-based Iron. Zinc is required for the body to make DNA and for cell division.

ADDITIONAL INFORMATION

ADVANCED IMMUNITY BOOSTER

Newgate Labs' Advanced Immunity Booster supplement contains a combination of Vitamin C, Zinc and Copper made to help support overall wellness and immunity. Being a powerful antioxidant, vitamin C can strengthen your body's defences by helping fight free radicals. Zinc is also a mineral that is essential for many of the body's normal functions and systems, and Copper helps maintain healthy bones, blood vessels, nerves, and immune function

Our supplement is an excellent choice for those who want to boost their overall health and immunity. It helps the body fight against the common cold and reduces the risk of age-related eye diseases.

MAIN APPLICATION

Newgate Labs' Advanced Immunity Booster allows you to enjoy a combination of vitamin C, Copper and Zinc which have many health benefits related to strengthening immunity and supporting the growth, development and repair of all body tissues as well as maintenance of bones, cartilage and teeth.

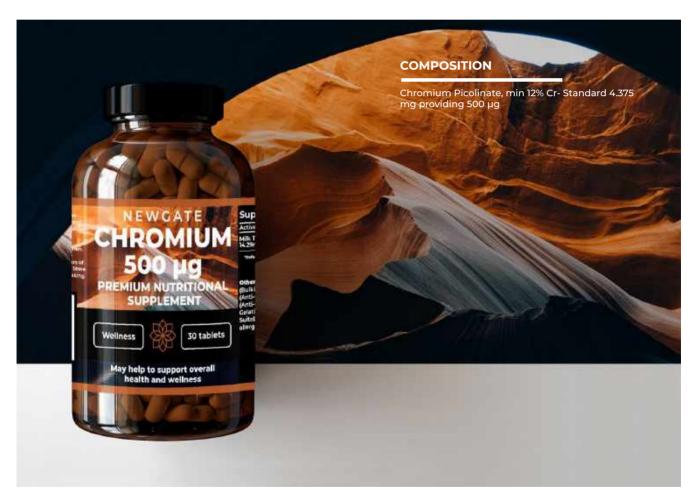

ADDITIONAL INFORMATION

CHROMIUM 500 µg

Newgate Labs' Chromium 500 μ g supplement may improve mood, reduce cravings, improve insulin sensitivity and regulate blood glucose levels. Chromium is an essential trace element that forms a compound in the body that seems to enhance the effects of insulin and lower glucose levels. Chromium is involved in sugar and fat metabolism. It may also help boost the actions of insulin, the blood sugar-regulating hormone.

Our supplement may also have effects on cholesterol, heart disease, psychological disorders, Parkinson's disease and more. Good sources of Chromium include broccoli, liver and brewer's yeast.

MAIN APPLICATION

Chromium may help support the hormone released by the pancreas to balance blood sugar levels. It also may contribute to normal macronutrient (carbohydrates, fats and proteins) metabolism and can help maintain normal blood glucose levels.

ADDITIONAL INFORMATION

CHROMIUM EXTRA

Newgate Labs' Chromium Extra supplement provides an additional dose of Chromium which may help improve mood, reduce cravings, improve insulin sensitivity and regulate blood glucose levels. Being an essential trace element, Chromium forms a compound in the body, enhancing the effects of insulin and lowering glucose levels. Chromium may also help boost the actions of insulin, the blood sugar-regulating hormone.

Our supplement may also have effects on cholesterol, heart disease, psychological disorders, Parkinson's disease and more. Food sources of chromium include broccoli, liver and brewer's yeast.

MAIN APPLICATION

Chromium may contribute to weight loss and an increase muscle mass. It may also help in normal macronutrient (carbohydrates, fats and proteins) metabolism and helps maintain normal blood glucose levels.

ADDITIONAL INFORMATION

CARB BLOCKER

Newgate Labs' Carb Blocker supplement helps prevent the body's enzymes from breaking down and digesting carbohydrates, which may help decrease calorie intake and control blood sugar levels. The main ingredient of this supplement is white kidney bean extract; it is actively promoted as a weight loss aid.

Our supplement is perfect for those looking for help to get rid of some unwanted kilograms, control blood sugar levels or regulate hormone production.

MAIN APPLICATION

White kidney bean extract is said to offer a slew of health benefits, including weight loss, appetite control, and decreasing abdominal fat. The Carb Blocker supplements also includes Guarana extract which contains compounds like caffeine, theobromine, tannins, saponins, catechins and others that have antioxidant properties.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2 tablets twice per day with water 15 minutes before food

NEURO VITAMIN

Newgate's Neuro Vitamin Supplement contains various ingredients formulated together to aid normal neurological functions.

Vitamin B6 is involved in the normal functioning of neurotransmitters, which are chemicals released within the nerves to produce a physical action. Vitamin B12 is essential in protecting your nerve coverings and cleansing the body from homocysteine, a harmful compound linked to stroke and cardiovascular disease. Vitamin D3 also helps with the absorption of Calcium and Phosphorous. Folic acid contributes to the health of the immune system and normal psychological function.

MAIN APPLICATION

Our Neuro Vitamin supplement may help support overall health and cognitive wellness. It contains a combination of vitamins B6 and 12, D3 and Folic acid. When combined together, these components help support cognitive health and neurological functions.

ADDITIONAL INFORMATION

MULTIVITAMIN SUPPLEMENT

Newgate Labs' Multivitamin supplement contains essential nutrients, aminos (a compound that helps improve your mood, increase exercise stamina, helps maintain muscle mass and reduce weight), fatty acids and minerals which all work together to produce optimum health in the body.

Our supplement contains a combination of both natural and synthetic ingredients that have been carefully selected to keep your body and mind functioning at peak performance levels.

MAIN APPLICATION

The primary role of a multivitamin is to fill nutritional gaps and make sure people get their daily allowance of under consumed nutrients such as vitamins A, C, D, E and K, Calcium, Magnesium, dietary fibre, Choline, in addition to Potassium. It can also provide nutrients such as vitamin D that are not supplied adequately from food sources alone.

ADDITIONAL INFORMATION

A TO Z MULTIVITAMINS AND MINERALS

With a base similar to that of the Multivitamin supplement, Newgate Labs' A to Z Multivitamins and Minerals contains an even larger range of crucial nutrients, aminos, fatty acids and minerals. This well-dosed blend has resulted in a supplement that is optimised to support the body's health and well-being.

Our supplement contains a combination of both natural and synthetic ingredients that have been carefully selected to help improve mood, increase exercise stamina, maintain muscle mass, reduce weight and provide many other health benefits.

MAIN APPLICATION

There are more than 50 nutrients needed for thousands of metabolic processes as well as the maintenance of good health. Newgate Labs' famous A to Z Multivitamins and Minerals supplement provides a mixture of several nutrients and vitamins that help with immunity, energy levels and proper growth and development.

ADDITIONAL INFORMATION

A TO Z MULTIVITAMINS AND MINERALS

With a base similar to the Multivitamin supplement, Newgate Labs' famous A to Z Multivitamins and Minerals supplement contains an even larger range of highly important nutrients, aminos, fatty acids and minerals. This carefully dosed blend has resulted in a supplement that is optimised to support the body's health and well-being.

Our supplement contains a combination of both natural and synthetic ingredients that have been carefully selected to help improve mood, increase exercise stamina, maintain muscle mass, reduce weight and provide many other health benefits.

MAIN APPLICATION

Multivitamins are key in palliating gaps and deficiencies in essential vitamins or nutrients that people may have. Our supplement contains a carefully dosed combination of both minerals and vitamins like vitamins A, C, D, E and K, Calcium, Magnesium, dietary fibre, Choline, in addition to Potassium.

ADDITIONAL INFORMATION

MULTIVITAMIN + CAFFEINE

Newgate Labs' Multivitamin + Caffeine supplement contains a range of essential nutrients, fatty amino acids and minerals which all work together to optimise the body's health and wellness, and helps providing the body with the energy it needs to go through the day . This supplement contains an extra dosage of caffeine which works as a fast-acting stimulant that increases the activity of the brain and the nervous system.

Our supplement is especially popular among city dwellers and individuals with busy work schedules as it enhances performance, focus and concentration.

MAIN APPLICATION

Newgate Labs' Multivitamin + Caffeine supplement helps improve brain functioning and mental agility. It also helps increase focus, improve memory and enhance physical performance. Caffeine is a stimulant that has been shown to increase energy levels and decrease fatigue by altering levels of certain neurotransmitters in the brain.

ADDITIONAL INFORMATION

MULTIVITAMINS FOR MEN OVER 50

Newgate Labs' Multivitamin for Men Over 50 contains a plethora of beneficial nutrients like vitamins B6, D3, E and D. When it comes to minerals, it is action-packed with nutrients like copper, manganese, chromium, potassium and zinc that may help boost the body's energy and health. Multivitamins are useful for maintaining the functioning of the body. They also help support body parts like the eyes, brain and heart.

This supplement also contains a combination of vitamins B6, B12 and Magnesium that boost cognitive and cardiovascular health along with Calcium, Manganese and vitamin K.

MAIN APPLICATION

Newgate's Multivitamin for Men Over 50 contains several vitamins such as vitamins B6, B12, and Magnesium. These help boost cognitive and cardiovascular health. Vitamin K, Calcium and Manganese can help enhance bone health. Maca and Ginseng stem and leaf extract improve certain aspects of fertility in males.

ADDITIONAL INFORMATION

CHILDREN'S MULTIVITAMIN

Newgate Labs' Children's Multivitamins chewable gummies are filled with a nutritious blend of essential vitamins that contribute to normal function of skin, vision, bone, teeth and immune system in children.

Vitamins A, D, C, B6, and B12, together with Iron and Folic Acid, may help support the normal functioning of the immune system. Vitamin D supports the maintenance of normal bones and teeth. Biotin, lodine, vitamins B2 and B3 support the maintenance of normal skin. Biotin, along with Selenium and Zinc, also supports the maintenance of normal hair.

MAIN APPLICATION

Newgate Labs' Children's Multivitamin chewable tablets are a good way for children with vitamin deficiencies to receive their daily dose of vitamins. This supplement may help support the child's overall immune system and boost energy levels as it is rich in vitamins A, D, C, B6, B12, Iron and Folic Acid amongst others.

ADDITIONAL INFORMATION

CALCIUM MAGNESIUM

Newgate Labs' Calcium Magnesium supplement may help maintain and support the normal functions of the body. It is carefully designed and formulated to provide a perfect balance of both Magnesium and Calcium for overall health and wellbeing. The Calcium and Magnesium found in this supplement could help maintain bone health, regulate muscle contractions, support muscle and nerve function and increase energy levels.

Our supplement may help support bone and cardiovascular health. It may also aid in elevating mood and improving sleep quality.

MAIN APPLICATION

Calcium and Magnesium are good for bone health. These two minerals are also important for everyday essential bodily functions; the way your body uses them means the minerals have to work in tandem to be highly effective. Magnesium helps the bones form and stay strong. Like Magnesium, Calcium is vital to bone health.

ADDITIONAL INFORMATION

CALCIUM MAGNESIUM WITH VITAMIN D3 600 IU

Newgate Labs' advanced Calcium Magnesium with Vitamin D3 600 IU supplement may help maintain and support the normal functions of the body. It is carefully designed and formulated with extra vitamin D3 to provide a perfect balance of Magnesium, Calcium and vitamin D3 for overall health and wellbeing.

The three ingredients found in this supplement may help maintain bone health, regulate muscle contractions, support muscle and nerve function and increase energy levels.

MAIN APPLICATION

Calcium Magnesium with Vitamin D3 600 IU supplement is ideal for those looking for help maintaining the normal functions of the body as it may help support bone and cardiovascular health. This combination could also help in elevating mood and improving sleep quality.

ADDITIONAL INFORMATION

Essential Mineral for Overall Health and Development

IODINE

lodine is a type of mineral that is naturally found in the earth's soil and ocean waters. It is particularly important during pregnancy; exposure in the womb may help prevent certain health conditions later in life.

Newgate Labs' lodine supplement may help promote thyroid health, manage an overactive thyroid gland and support neurodevelopment during pregnancy. It may reduce thyroid hormone and can kill fungus, bacteria and other microorganisms. Iodine may also be used to cure pink eye and gum infections, support wound healing and improve cognitive function and birth weight.

MAIN APPLICATION

lodine is an essential mineral required for the support of your overall health and wellness. This supplement may help boost thyroid health, and can also be an important support to fetal development during pregnancy as well as helping improve cognitive function and ensuring healthy birth weight.

ADDITIONAL INFORMATION

COLLAGEN 350 MG WITH HYALURONIC ACID, VITAMIN C AND VITAMIN E

Newgate Labs' Collagen supplement with hyaluronic acid, in addition to vitamins C and E, helps fight against aging, keeps the body's soft tissue healthy and keeps away joint, muscle and bone pain. Collagen is directly connected to the health of skin, joints, muscles and bones in the body. When combined with hyaluronic acid, it restores the cells and increases their elasticity and hydration. Collagen helps even out the skin's complexion, maintain stomach health, strengthen joints and bones and support and regenerate soft tissue in the body.

MAIN APPLICATION

Collagen is a protein responsible for maintaining healthy joints and skin elasticity. It exists in your bones, muscles, and blood, comprising three quarters of your skin and a third of the protein in your body. As you age, your existing Collagen breaks down, and it gets harder for your body to produce more.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2 capsules per day with water

ACETYL L-CARNITINE

Newgate Labs' Acetyl-L-Carnitine supplement is an excellent aid to help maintain a healthy heart, brain and liver. It can also help the body lose unwanted weight and increase energy. It is a nutrient which is essential for energy production in the body. Acetyl-L-Carnitine could also improve sperm motion which can lead to higher fertility in men.

Our supplement helps the body burn fat faster and improves heart health by energising the body. It also helps improve brain health and memory functioning.

MAIN APPLICATION

L-carnitine is made in the human brain, liver, and kidneys. The body can convert L-carnitine to acetyl-L-carnitine and vice versa. Acetyl-L-carnitine is also sometimes used for Alzheimer's disease, also improving memory and thinking skills, treating symptoms of depression as well as helping reduce nerve pain in people with diabetes.

ADDITIONAL INFORMATION

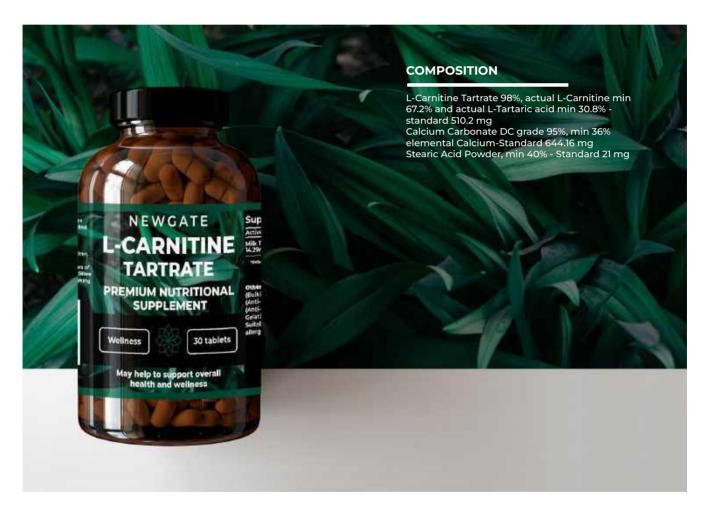

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule up to 3 times per day with water

L-CARNITINE TARTRATE

Newgate Labs' L-Carnitine Tartrate supplement helps the body burn fat for energy and maintain normal cardiovascular health.

L-Carnitine Tartrate helps in weight loss and the burning of fat. This nutrient is capable of turning fat into energy, and restores depleted muscles after strenuous exercise and bodybuilding. It is exceptional for muscle recovery after exercise. L-Carnitine Tartrate also benefits heart health as it has been shown to dramatically increase the heart muscle capabilities.

MAIN APPLICATION

L-Carnitine is best known as a fat burner, but it may also support brain function as well as prevent some diseases. L-Carnitine supplementation may help improve exercise performance and recovery; it may also help in reducing muscle soreness as well as increasing oxygen supply to the muscles.

ADDITIONAL INFORMATION

NAC N-ACETYL CYSTEINE

NAC can relieve symptoms of respiratory conditions as it can act as an effective antioxidant and expectorant, thus loosening mucus in your air passageways. As an antioxidant, NAC helps replenish glutathione levels in your lungs and reduces inflammation in your bronchial tubes and lung tissue.

Newgate Labs' NAC N-Acetyl Cysteine supplement is an excellent aid to help maintain overall health and wellness. Renowned for its ability to replenish levels of the antioxidant glutathione, it also regulates the important neurotransmitter glutamate.

MAIN APPLICATION

Newgate Labs' NAC N-Acetyl Cysteine supplements can help fill the gaps in your natural cysteine levels. One of NAC's most important jobs is to help your body replenish its glutathione stores. As one of your body's most potent antioxidants, glutathione helps get rid of cell-damaging free radicals.

ADDITIONAL INFORMATION

L-ARGININE HCI 500 MG

Newgate Labs' L-Arginine HCI 500 mg supplement may help improve cardiovascular health and blood pressure. It also helps increase the body's oxygen delivery and blood flow during exercise.

Our supplement is excellent for anyone but is popular among athletes. This product may help improve heart health, enhance kidney function and maintain a healthy body weight for individuals suffering from muscle-wasting diseases.

MAIN APPLICATION

L-arginine is an essential amino acid that is necessary for the production of nitric oxide, a molecule needed for a variety of bodily processes and functions, including blood flow regulation, mitochondrial function as well as cellular communication.

ADDITIONAL INFORMATION

MAGNESIUM SUPPLEMENT

Newgate Labs' Magnesium supplement contains the recommended daily dose of Magnesium. It helps improve energy levels, assists in the formation of proteins and the repairing of DNA and aids in nervous system regulation. Magnesium deficiencies are usually linked to the development of heart disease, depression and chronic inflammation in the body.

Our supplement helps lower blood pressure, improve mental health, regulate the nervous system as well as repair DNA to ensure stable genomes in the body.

MAIN APPLICATION

Magnesium, a mineral, plays an important role in brain functioning, helps maintain normal blood pressure levels and encourages strong bones and steady heart rhythm. Studies show that maintaining appropriate Magnesium levels can help the body fight against depression, type 2 diabetes and ease Premenstrual Syndrome (PMS).

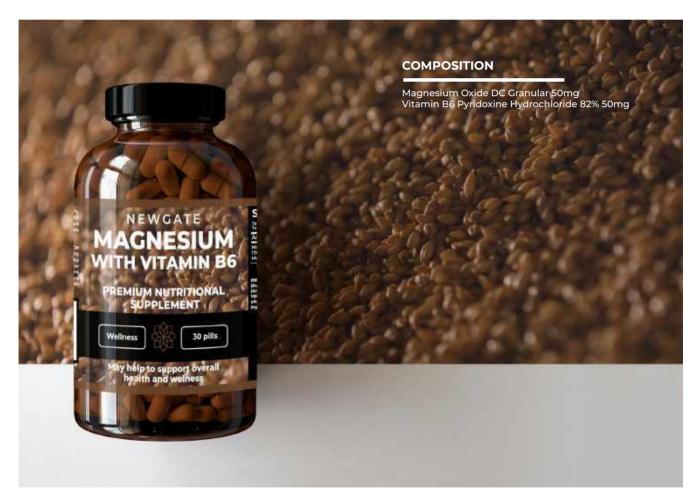

ADDITIONAL INFORMATION

MAGNESIUM WITH VITAMIN B6

Newgate Labs' Magnesium with Vitamin B6 supplement is a unique complex of both Magnesium and vitamin B6 that helps maintain normal energy levels, reduce tiredness and fatigue and stimulates muscle function. Due to its vitamin B6 content, which contributes to hormonal balance, this formula is widely recommended as it provides different benefits for the general well-being of all people.

Our supplement may thus help regulate hormonal activity as well as reduce tiredness and fatigue and normalise psychological function.

MAIN APPLICATION

Magnesium and vitamin B contribute to a healthy body. Both are essential vitamins that work in harmony in order to deliver vital nutrients necessary for the body's everyday functioning. Supplementing magnesium and B vitamins benefits the body as it can lead to fewer chances of developing a deficiency later.

ADDITIONAL INFORMATION

ZINC PICOLINATE

Newgate Labs' Zinc Picolinate supplement helps boost the immune system, promotes the growth of children and helps in wound healing and blood clotting. Zinc Picolinate is based on Picolinic acid and Zinc which is used by many people worldwide since it is absorbed faster by the body, giving the body its respective benefits.

This micro mineral is also used to reduce the size of the prostate, as well as fight against cirrhosis processes. It also helps in fighting acne processes, especially those that present a high degree of redness.

MAIN APPLICATION

Our Zinc Picolinate supplementation helps in controlling acne and functions as a general immunity booster. Zinc Picolinate can also help your body rid itself of many types of toxins.. Doctors commonly recommend Zinc Picolinate to pregnant women, since pregnancy can result in a Zinc deficiency.

ADDITIONAL INFORMATION

ZINC GLUCONATE 15 MG

Newgate Labs' Zinc Gluconate 15 mg supplement provides a natural option for UV protection and could help boost sex drive, improve skin complexion and speed up the healing process for injuries. Zinc, also known to be a natural mineral, is very important for the body's tissue growth. Low levels of Zinc in the body can lead to hair loss, a decrease in libido, fatigue, slow wound healing time and even depression. This supplement helps to correct Zinc deficiency within the body.

Our supplement is an exceptional antioxidant used to help boost your immunity, restore overall wellness as well as protect against harmful UV rays.

MAIN APPLICATION

Not only is Zinc one of the most abundant trace minerals in your body, but it also plays a key role in nearly every aspect of health. With research showing that this mineral may enhance immune function, stabilize blood sugar levels and support skin, eyes, and heart health, there are plenty of reasons to ensure you get your daily dose.

ADDITIONAL INFORMATION

ZINC GLUCONATE 50 MG

Zinc is a mineral that is essential to many different processes in the body. Because the body does not produce any Zinc, nor can it store it, the Zinc levels in our bodies all come from the foods that we eat. Red meat, shellfish, poultry, and of course, Newgate Labs' Zinc Gluconate 50 mg supplement are all excellent sources of Zinc.

Zinc plays a critical role in cell growth, accelerating wound healing, supporting the immune system as well as protein and DNA synthesis, decreasing inflammation, treating acne, and reducing the severity and duration of cold symptoms.

MAIN APPLICATION

Zinc may reduce the duration of cold symptoms, improve severe and inflammatory acne, help support blood sugar management, decrease heart disease risk, and slow the progression of macular degeneration. People at risk of zinc deficiency are advised to includes foods high in zinc in their daily diet or use supplementation.

ADDITIONAL INFORMATION

ZINC GLUCONATE 100 MG

Among Newgate Labs' series of Zinc products is our Zinc Gluconate 100 mg. This product contains a stronger dose of Zinc compared to the previous one and is recommended for those suffering from a more acute Zinc deficiency. Because our bodies do not produce or store any Zinc, we need to procure our needs in the mineral from external sources such as foods and supplements.

In addition to having both anti-inflammatory and immunity boosting properties, Zinc supports cell growth and wound healing, can treat acne and reduce the severity and duration of cold symptoms. It also plays an essential role in maintaining our sense of smell and taste!

MAIN APPLICATION

Zinc plays an essential role in maintaining overall health and well-being. It is therefore important to make sure our body gets enough of it. Symptoms of a deficiency include impaired growth and development, skin rashes, chronic diarrhea and impaired wound healing, among others.

ADDITIONAL INFORMATION

SELENIUM ACE

Newgate Labs' Selenium Ace supplement contains a great amount of antioxidants; it contains a combination of Selenium and vitamins A, C and E. This supplement helps maintain a healthy immune system and normal function of the thyroids.

Selenium is an essential trace mineral; it is important for many bodily processes, including cognitive function, a healthy immune system and fertility in both men and women. It contributes to thyroid hormone metabolism and DNA synthesis. It also helps protect against oxidative damage and infection.

MAIN APPLICATION

Selenium is an essential trace mineral which is important for many bodily processes, including cognitive function, a healthy immune system and fertility in both men and women. It contributes to thyroid hormone metabolism and DNA synthesis, and it helps protect against oxidative damage and infection.

ADDITIONAL INFORMATION

SELENIUM AND ZINC

Newgate Labs' Selenium and Zinc is a powerful supplement that may help enhance immune function and keep the body free of disease and common illnesses.

Zinc plays a role in immune function, protein synthesis, cell division and wound healing. In addition, it is important for normal growth and development during childhood and pregnancy phases. Selenium is an essential mineral obtained by the body through a diet. It is important for reproduction, thyroid function and DNA synthesis. It also acts as an antioxidant, which helps protect the body from oxidative damage and infection.

MAIN APPLICATION

Newgate Labs' Selenium and Zinc is an ideal supplement for those looking to boost their immunity and support overall health and wellness. Common dietary sources of Selenium may include eggs, sunflower seeds and chicken breast. Whole grains, milk products, read meat, chickpeas and nuts are great sources of Zinc.

ADDITIONAL INFORMATION

VITAMIN D3 500 IU

Newgate Labs' Vitamin D3 500 IU supplement is similar to the Vitamin D3 400 IU supplement in many aspects, but provides a stronger dose of vitamin D3, helping to palliate more acute vitamin D3 deficiencies. In addition to helping preserve bone and teeth strength, it is a great way to boost immunity and improve one's mood.

Our supplement is highly recommended for people whose exposure to the sun is minimal as it can help reduce depression symptoms which often arise during the colder seasons of the year. A daily dose of this supplement could help the body achieve an adequate level of vitamin D3.

MAIN APPLICATION

Among the health benefits that vitamin D3 offers are that it strengthens bones and muscles, boosts immunity, improves mood, reduces inflammation and improves heart function. Vitamin D3 is important as it increases bone density and muscle mass. Low vitamin D3 puts you at risk for osteoporosis and other bone problems.

ADDITIONAL INFORMATION

VITAMIN D3 1,000 IU

Newgate Labs' Vitamin D3 1,000 IU supplement is perfect for those in need of a more powerful dose of vitamin D3. Also referred to as the "Sunshine Supplement," it helps maintain strong bones and teeth. It is recommended for those living at a medium or high latitude during the autumn and winter months to ensure adequate vitamin D3 levels when regular sun exposure is not available. A dose of our supplement daily can help the body achieve an adequate level of vitamin D3.

Our supplement is a potent choice for those seeking the strongest amount of vitamin D3 to help with increased absorption. You should consult your doctor before taking this dosage of vitamin D3.

MAIN APPLICATION

Among the health benefits that vitamin D3 offers are that it helps strengthen bones and muscles, boosts immunity, improves mood and heart function, and helps reduce inflammation. Vitamin D3 is essential as it increases bone density and muscle mass. Low vitamin D3 puts you at risk for osteoporosis and other bone problems.

ADDITIONAL INFORMATION

Newgate Labs' Vitamin D3 25,000 IU supplement is is perfect for those in need of a more powerful dose of vitamin D3. Also referred to as the "Sunshine Supplement," it helps maintain strong bones and teeth. It is recommended for those living at a medium or high latitude during the autumn and winter months to ensure adequate vitamin D3 levels when regular sun exposure is not available. A dose of our supplement daily can help the body achieve an adequate level of vitamin D3.

Our supplement is a potent choice for those seeking the strongest amount of vitamin D3 to help with increased absorption. You should consult your doctor before taking this dosage of vitamin D3.

MAIN APPLICATION

Among the health benefits that vitamin D3 offers are that it helps strengthen bones and muscles, boosts immunity, improves mood and heart function, and helps reduce inflammation. Vitamin D3 is essential as it increases bone density and muscle mass. Low vitamin D3 puts you at risk for osteoporosis and other bone problems.

ADDITIONAL INFORMATION

VITAMIN D3 50,000 IU

Newgate Labs' Vitamin D3 50,000 IU supplement is the strongest dosage of vitamin D we have available. Referred to as the "Sunshine Supplement," it helps maintain strong bones and teeth. It is especially recommended for those living at a medium or high latitude during the autumn and winter months to ensure adequate vitamin D3 levels when regular sun exposure is not available. A dose of our supplement daily can help the body achieve an adequate level of vitamin D3.

Our supplement is a potent choice for those seeking the strongest amount of vitamin D3 to help with increased absorption. You should consult your doctor before taking this dosage of vitamin D3.

MAIN APPLICATION

Among the health benefits that vitamin D3 offers are that it helps strengthen bones and muscles, boosts immunity, improves mood and heart function, and helps reduce inflammation. Vitamin D3 is essential as it increases bone density and muscle mass. Low vitamin D3 puts you at risk for osteoporosis and other bone problems.

ADDITIONAL INFORMATION

VITAMIN D3 AND K2

Newgate Labs' Vitamin D3 and K2 supplement helps enhance blood coagulation, improve cardiovascular health in menopausal women and increase bone density and testosterone levels in men.

Vitamin K2 prevents the calcification process that can sometimes occur in the blood vessels by interacting with a protein called Matrix Gla (MGP). Studies show that Vitamin K2 consumption may also decrease coronary calcification in menopausal women. This vitamin also helps lighten heavy menstrual flow.

MAIN APPLICATION

Vitamin K2 plays an essential role in blood clotting, heart and bone health. A higher intake of vitamin K2 is strongly associated with a reduced risk of heart disease. Vitamin K2 is combined with D3 in order to help increase bone density and muscle mass, which makes this an effective supplement in enhancing overall health and well-being.

ADDITIONAL INFORMATION

Artery Decalcifying and Bone Densifying Supplement

VITAMIN K2 (MK7)

Newgate Labs' Vitamin K2 (MK7) supplement helps further enhance blood coagulation. It increases bone density and testosterone levels in men and helps improve cardiovascular health in menopausal women.

Vitamin K2 prevents the calcification process that can sometimes occur in the blood vessels by interacting with a protein called Matrix Gla (MGP). According to studies, vitamin K2 consumption may also lighten heavy menstrual flow and help decrease coronary calcification in menopausal women.

MAIN APPLICATION

Vitamin K2 plays an essential role in blood clotting, heart health and bone health and metabolism. Studies suggest that it helps prevent osteoporosis and fractures. Vitamin K2 has been found to improve survival in patients with liver cancer as well.

ADDITIONAL INFORMATION

VITAMIN K2 (MK4)

Vitamin K2 is the common name for a group of related compounds known as menaquinones. MK-4 is the most nutritionally significant short-chain menaquinone. Vitamin K2 is produced by bacteria, so fermented foods like cheese are the most abundant dietary sources of this nutrient. Animal sources such as meat and eggs also contain relatively small levels of MK-4. Specific tissues in the body such as arterial walls and the pancreas can also convert vitamin K1 into MK-4.

Our supplement has many health benefits including supporting the nervous system, helping manage unhealthy levels of inflammation, especially in joints, and supporting bone and heart health.

MAIN APPLICATION

Vitamin K2 plays an essential role in blood clotting, heart and bone health. A higher intake of vitamin K2 is strongly associated with a reduced risk of heart diseases. Vitamin K2 plays an essential role in bone metabolism. According to studies, it can help prevent osteoporosis and fractures.

ADDITIONAL INFORMATION

VITAMIN E

Newgate Labs' Vitamin E supplement helps support the immune system and the process of cell regeneration. Vitamin E, a fat-soluble vitamin, is essential for various functions of the body as it contains anti-inflammatory and antioxidant properties. Vitamin E helps protect the body against damage caused by free radicals, which may lead to the premature aging of cells. It may also help manage dysmenorrhea, a condition characterised by severe and frequent menstrual pain, such as cramps and pelvic pain.

Our supplement helps those looking for help supporting the immune, circulatory and cardiovascular systems. It also helps cellular growth.

MAIN APPLICATION

Vitamin E is an important fat-soluble nutrient, a powerful antioxidant and is needed for immune health and cellular signaling in your body. Some studies show that taking vitamin E supplements may benefit certain populations, including people with diabetic nephropathy and NAFLD.

ADDITIONAL INFORMATION

CALCIUM

Newgate Labs' Calcium supplement helps treat or prevent conditions such as osteoporosis, weak and easily broken bones, and its precursor, osteopenia. Calcium is a mineral that is well-known for its key role in bone health. In addition to helping maintain bone health, it plays a role in maintaining a healthy heart rhythm and muscle function. It is key to growing new bones and keeping them strong and healthy.

Our supplement may also help prevent or control high blood pressure, ease Premenstrual Syndrome (PMS) symptoms and improve overall health and wellness.

MAIN APPLICATION

Calcium is a nutrient that is crucial for living organisms, especially humans. It is the most abundant mineral in the body, and it is vital for bone health. Calcium is necessary for maintaining a healthy communication between the brain and other parts of the body. It also plays a role in muscle movement and proper cardiovascular function.

ADDITIONAL INFORMATION

CALCIUM AND VITAMIN D3

Newgate Labs' Calcium and Vitamin D3 supplement is used to treat or prevent a Calcium deficiency. Calcium is a mineral that is necessary for many functions of the body, like bone formation and maintenance, while vitamin D helps the body absorb Calcium. Combining Calcium and vitamin D may have benefits beyond bone health, like protecting the body against cancer, diabetes and high blood pressure.

Our supplement can help treat certain conditions caused by low levels of Calcium. Examples include bone loss (osteoporosis), weak bones (osteomalacia/rickets), a decreased activity of the parathyroid gland (hypoparathyroidism) and a certain muscle disease (latent tetany).

MAIN APPLICATION

Vitamin D3 and Calcium is the perfect combination for people looking for an effective supplement to support joints and bone health. It may also help in treating bone disorders especially in people who have low phosphate in their blood. Furthermore, it helps prevent the softening of bones.

ADDITIONAL INFORMATION

IRON 14 MG

Newgate Labs' Iron 14 mg supplement may help treat and prevent anemia caused by low Iron levels. Iron, an essential mineral that helps red blood cells carry oxygen all over the body, is crucial for both physical and mental performance. Iron supplements are excellent for anyone suffering from iron deficiency issues and they are specifically recommended for women of childbearing age, pregnant women and athletes.

Our supplement helps maintain vital body functions. It also increases Iron levels and enhances immune system function.

MAIN APPLICATION

Iron helps red blood cells carry oxygen from the lungs to cells all over the body. It also helps in many important functions in the body. People commonly use Iron for preventing and treating different types of anemia caused by low Iron levels.

ADDITIONAL INFORMATION

Vegan
Vegetarian
Animal Cruelty-Free
Made in the United Kingdom
Take 1 tablet up to 2 times per
day, preferably at mealtime

IRON 45 MG

Newgate Labs' Iron 45 mg supplement has an additional dose of Iron, increasing its ability to help treat and prevent anemia caused by low Iron levels. Iron is a mineral that plays an important role in helping red blood cells carry oxygen all across the body and is essential for mental and physical performance. Iron supplements are recommended for those suffering from Iron deficiency as well as women of childbearing age, pregnant women and athletes.

Our supplement helps maintain vital body functions. It also increases Iron levels and enhances immune system function.

MAIN APPLICATION

In addition to palliating Iron deficiencies, Newgate Labs' Iron supplement may help manage unexplained fatigue, especially for menstruating women. Iron supplements have also been associated with improving restless leg syndrome as well as increased concentration and boosted cognitive performance.

ADDITIONAL INFORMATION

VITAMIN B COMPLEX

Newgate Labs' Vitamin B Complex supplement is composed of several types of B vitamins. It is popular among those looking to increase their vitamin B intake, especially among pregnant or breastfeeding women as it may help lower the risk of birth defects and support fetal brain development.

Our supplement is an excellent choice for anyone looking to increase their vitamin B intake and promote cell growth, healthy brain function and proper nerve function. It may also help increase energy levels and improve mood.

MAIN APPLICATION

Pregnant women, older adults, vegans and those living with certain medical conditions may benefit from taking a B-complex supplement. Taking these supplements may also improve mood, cognitive function and symptoms of depression.

ADDITIONAL INFORMATION

VITAMIN B6 50 MG

Newgate Labs' Vitamin B6 supplement may help maintain a healthy nervous system and brain function. Vitamin B6 has many important functions in the body as it plays an essential role in the production of red blood cells and the proper development of the brain, nerves and skin. It may also help promote eye health and prevent eye diseases.

Our supplement is a leading choice for those looking to boost brain performance and lower the risk of heart and other vascular diseases. It may help promote eye health and prevent eye diseases as well as improving mood, reducing depression symptoms and premenstrual syndrome symptoms.

MAIN APPLICATION

Vitamin B6 is a water-soluble vitamin obtained from food or supplements. It is needed for regulating homocysteine levels and creating neurotransmitters. High doses of B6 have been used to help prevent or treat health conditions including PMS, age-related macular degeneration as well as nausea and vomiting during pregnancy.

ADDITIONAL INFORMATION

VITAMIN B12 250 µg

Newgate Labs' Vitamin B12 250µg supplement may help protect against chronic disease as well as neural tube defects. Vitamin B12 is essential for the development of the brain, nerves and blood cells. This supplement is excellent for everyone as it may help improve memory and prevent dementia. It is often specifically recommended for the elderly.

Our supplement is recommended for people who are looking for help supporting bone health, decreasing tiredness and fatigue as well as improving memory.

MAIN APPLICATION

Vitamin B12 is a water-soluble vitamin obtained through diet or supplements. It is responsible for various bodily functions and may benefit your health in various ways, such as preventing major birth defects, supporting bone health, improving mood and maintaining healthy skin and hair.

ADDITIONAL INFORMATION

VITAMIN B12 1,000 μg

Newgate Labs' Vitamin B12 1,000µg supplement may help protect against chronic diseases and neural tube defects with a more powerful dosage. Vitamin B12 is essential for the development of the brain, nerves and blood cells. This supplement is excellent for everyone as it may help improve memory and prevent dementia. It is often specifically recommended for the elderly.

Our supplement is recommended for people who are looking for a more powerful dosage to help support their bone health, decrease tiredness and fatigue and improve memory.

MAIN APPLICATION

Vitamin B12 is a water-soluble vitamin obtained through diet or supplements. It is responsible for various bodily functions and may benefit your health in various ways, such as preventing major birth defects, supporting bone health, improving mood and maintaining healthy skin and hair.

ADDITIONAL INFORMATION

VITAMIN B12 METHYLCOBALAMIN

Newgate Labs' Vitamin B12 Methylcobalamin supplement helps make DNA, the genetic material in all cells. Vitamin B12 also helps prevent a type of anemia called megaloblastic anemia that makes people tired and weak. Methylcobalamin is a form of vitamin B12. Vitamin B12 is important for the brain and nerves, and for the production of red blood cells. Methylcobalamin is used to treat vitamin B12 deficiency.

Our supplement is a leading choice for those looking to boost brain performance and lower the risk of heart and other vascular diseases.

MAIN APPLICATION

Methylcobalamin helps in treating vitamin B12 deficiency. Vitamin B12 is important for the brain and nerves, and for the production of red blood cells. Methylcobalamin is sometimes used by people who suffer from pernicious anemia, diabetes, and other conditions.

ADDITIONAL INFORMATION

VITAMIN B12 METHYLCOBALAMIN EXTRA

Newgate Labs' Vitamin B12 Methylcobalamin Extra may be used to treat vitamin B12 deficiencies as well as support brain health and aid in the production of red blood cells. Methylcobalamin is the most active form of B12 in the body and it is easily absorbed. This type of B12 works well to reduce levels of homocysteine, an amino acid that at high levels increases the risk of heart disease and stroke.

Our supplement may be used to support healthy energy metabolism, immune function, heart health, nervous system health and red blood cell formation, among other benefits.

MAIN APPLICATION

Vitamin B12 is a water-soluble vitamin that you can only obtain through diet or supplements. It is responsible for various bodily functions and may benefit your health in many ways which include preventing major birth defects, supporting bone health, improving mood, in addition to maintaining skin and hair health.

ADDITIONAL INFORMATION

VITAMIN B3 NICOTINIC ACID

Newgate Labs' Vitamin B3 Nicotinic Acid supplement may help lower cholesterol, ease arthritis and boost brain function. Niacin (Nicotinic acid), also known as vitamin B3, is an important nutrient which helps convert food into energy by aiding enzymes.

Our supplement may improve blood fat levels, reduce blood pressure, help treat type I diabetes, boost brain function as well as improve skin health. Therapeutic doses of this vitamin can help lower triglyceride levels and protect skin from sun damage as Nicotinamide contains photoprotective properties when taken orally or applied topically.

MAIN APPLICATION

Niacinamide is one form of vitamin B3 (Niacin) that plays an important role in energy metabolism and cell health. This vitamin helps convert food into energy. It may offer benefits related to skin care as well as chronic kidney disease and type 1 diabetes.

ADDITIONAL INFORMATION

VITAMINS B1, B6 & B12

Newgate Labs' Vitamin B1, B6 and B12 supplement contains an optimal combination of vitamins to help maintain overall health.

Vitamin B1, also known as thiamine, is an essential nutrient that all tissues of the body need to function properly. Vitamin B6, or pyridoxine, benefits the central nervous system and metabolism by turning food into energy and helping create neurotransmitters, such as serotonin and dopamine. Vitamin B12, also known as cobalamin, is crucial for nerve tissue health, brain function, and the production of red blood cells.

MAIN APPLICATION

The B vitamins present in Newgate Labs' Vitamin B1, B6 & B12 supplement play a vital role in maintaining good health and well-being. As the building blocks of a healthy body, B vitamins have a direct impact on your energy levels, brain function, and cell metabolism.

ADDITIONAL INFORMATION

NIACIN (VITAMIN B3) 500 MG

Newgate Labs' Niacin (Vitamin B3) supplement, or nicotinic acid, is an organic compound and a form of vitamin B3, which is an essential human nutrient. It can be manufactured by plants and animals from the amino acid tryptophan. It helps keep the nervous and digestive systems healthy, and helps maintain healthy skin. Niacin is often part of a daily multivitamin, but most people get enough niacin from the food they eat.

Our supplement helps lower high cholesterol, treat abnormal levels of blood fat, aid with circulation problems and relieve migraines.

MAIN APPLICATION

Niacin is one of eight B vitamins that are important for every part of your body. This supplement may help treat high cholesterol and it may help exert positive effects on blood fat and blood pressure levels. It also plays a role in type 1 diabetes and brain health.

ADDITIONAL INFORMATION

ZMB 6

Newgate Labs' ZMB-6 supplement provides a balanced combination of vitamins and minerals including Zinc, Magnesium and vitamin B6. It is popular among athletes, bodybuilders and fitness enthusiasts as it may help improve athletic performance. This synergistic mixture has been found to contribute to the effective regeneration of muscle mass. The ZMB-6 supplement also helps improve sleep quality and elevate your mood.

Our supplement provides a prime option to wellness for those looking to improve their immune system, quality of sleep and energy levels.

MAIN APPLICATION

ZMB-6 is a supplement made up of Zinc, Magnesium and vitamin B6. Zinc supports the body's immune system and muscles. Magnesium plays a role in metabolism, muscle health and helps manage sleep. B6 boosts energy. This combination helps build muscle strength and stamina, speed muscle recovery and improve the quality of sleep.

ADDITIONAL INFORMATION

Vegan

Vegetarian

Men take 3 tablets, women take 2 tablets per day, approximately 30-60 minutes before bedtime, on an empty stomach

VITAMIN C 500 MG

Newgate Labs' Vitamin C 500 mg supplement, also known as ascorbic acid, is necessary for the growth, development and repair of all body tissues. It is involved in many body functions, including the formation of collagen, proper functioning of the immune system, wound healing and maintenance of cartilage, bones, and teeth. Vitamin C assists with the body's absorption of Iron, a mineral that is essential for preventing and treating anemia.

Our supplement is essential for those trying to improve their immune system, aid in iron absorption and maintain healthy skin and hair.

MAIN APPLICATION

Vitamin C is a water-soluble vitamin obtained from diet or supplements. It has many health benefits which include boosting antioxidant levels and lowering blood pressure. It also helps in protecting against gout attacks, improving iron absorption, boosting immunity and reducing heart disease and dementia risk.

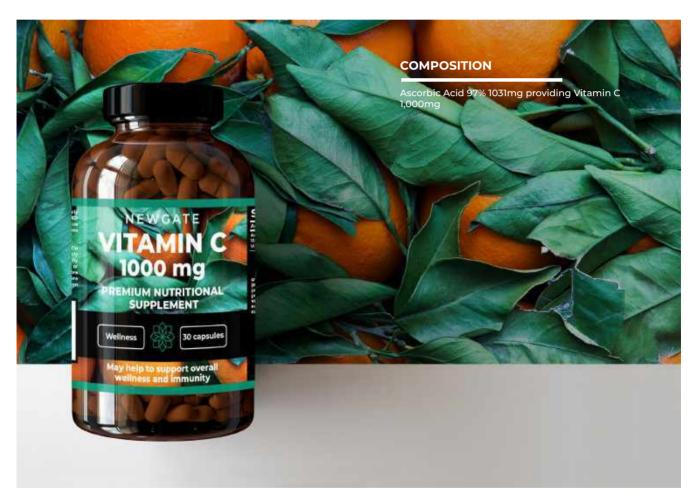

ADDITIONAL INFORMATION

VITAMIN C 1,000 MG

Newgate Labs' Vitamin C 1,000 mg supplement is a strong antioxidant that helps support overall health and wellbeing. It provides a more potent dose to help improve the body's immune system and protect it against infection. For adults, the recommended daily amount for vitamin C is 65-90 mg per day, and the upper limit is 2,000 mg per day. Although too much dietary vitamin C is unlikely to be harmful, megadoses of vitamin C supplements might cause diarrhea.

Our supplement is essential for those trying to improve their immune system, aid in iron absorption and maintain healthy skin and hair.

MAIN APPLICATION

Vitamin C is a water-soluble vitamin obtained from diet or supplements. It has many health benefits which include boosting antioxidant levels and lowering blood pressure. It also helps in protecting against gout attacks, improving iron absorption, boosting immunity and reducing heart disease and dementia risk.

ADDITIONAL INFORMATION

Vegan
Vegetarian
Animal Cruelty-Free
Made in the United Kingdom
Take 1 capsule per day with water

VITAMIN C 1,000 MG CHEWABLE TABLETS

Vitamin C is one of many antioxidants that help support the immune system and protect it against damage caused by harmful molecules called free radicals and toxic chemicals and pollutants like cigarette smoke. Free radicals can build up and contribute to the development of health conditions such as cancer, heart disease, and arthritis.

Newgate Labs' Vitamin C 1,000 mg chewable tablet helps protect cells and keeps them healthy. It also maintains healthy skin, blood vessels, bones and cartilage, and supports wound healing. Chewable vitamins are easier for your body to absorb and digest.

MAIN APPLICATION

Vitamin C is a water-soluble vitamin obtained from diet or supplements. Some of its many health benefits include: boosting antioxidant levels, improving iron absorption, lowering blood pressure, protecting against gout attacks, boosting immunity as well as reducing heart disease and dementia risk.

ADDITIONAL INFORMATION

VITAMIN C WITH ROSEHIP AND BIOFLAVONOIDS

Newgate Labs' Vitamin C Rosehip and Bioflavonoids supplement is a powerful antioxidant cocktail that may help boost immunity, maintain healthy hair and skin and aid in iron absorption. Bioflavonoids are a group of compounds that are widely distributed in the plant kingdom. They have been used in alternative medicine as an antioxidant to treat osteoarthritis and other inflammatory conditions, and to enhance the action of vitamin C. Our supplement is excellent for those looking to improve their overall health and wellbeing through the combination of these three potent antioxidant-rich compounds.

MAIN APPLICATION

Rosehip may help maintain healthy digestive, respiratory, excretory, and immune systems. Vitamin C contributes to normal collagen formation for the normal functioning of bones and cartilage as well as the immune system. It is an antioxidant that helps protect cells from oxidative stress.

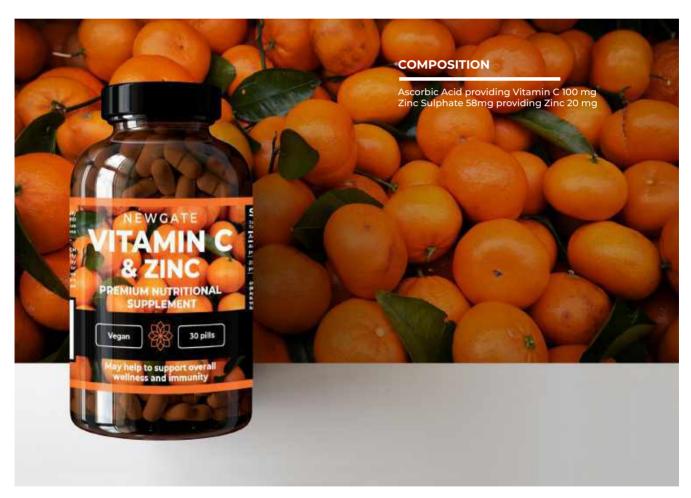

ADDITIONAL INFORMATION

VITAMIN C AND ZINC

Newgate Labs' Vitamin C and Zinc supplement is a combination of Vitamin C and Zinc that helps support overall wellness and the body's immune system. As an antioxidant, Vitamin C helps fight free radicals in the body which can lead to premature aging of cells. The Zinc in this supplement is also essential for the proper growth of the cells in the body and may help support the immune system.

Our supplement provides superb support for those looking to improve their overall health and wellness. It may help the body fight against the common cold and reduce the risk of age-related eye diseases.

MAIN APPLICATION

Vitamin C and Zinc have many health benefits, including boosting immunity, reducing the risk of some age-related eye diseases as well as helping wounds heal. Vitamin C helps in the absorption of plant-based Iron, while Zinc is required for the body to make DNA and for cell division.

ADDITIONAL INFORMATION

POTASSIUM AND VITAMIN C

Newgate Labs' supplement combining Potassium Chloride 400 mg and Vitamin C 100 mg helps support immune function, aid in muscle contractions and promote cellular growth.

Potassium Chloride replaces Potassium in your body. Potassium is a mineral that is essential for the conduction of nerve impulses in the heart, brain and skeletal muscle as well as the contraction of cardiac, skeletal and smooth muscles. Vitamin C works in metabolic reactions such as the synthesis of collagen and the amino acid Carnitine. It also acts as an antioxidant and aids in immune functions by preventing free radical damage and decreasing inflammation.

MAIN APPLICATION

Vitamin C acts as an antioxidant and helps in immune functions by preventing free radical damage as well as decreasing inflammation. Potassium is an electrolyte that functions to maintain your body's fluid balance. It could also help in muscle contractions and promotes cellular growth.

ADDITIONAL INFORMATION

ZINC, COPPER AND VITAMIN C

Newgate Labs' Zinc, Copper and Vitamin C supplement can help in supporting the immune system and strengthening bones and blood vessels.

Vitamin C and Zinc aid immunity, reduce the risk of age-related eye diseases and help wounds heal. Vitamin C also helps the absorption of plant-based iron, while Zinc is required for the body to make DNA and for cell division. Copper and Zinc are two essential nutrients metals. Copper is necessary to keep your heart and bones healthy and is used for brain development. Zinc boosts the immune system and ensures that your body stays healthy.

MAIN APPLICATION

Newgate Labs' Zinc, Copper and Vitamin C supplement helps boost your natural defences as it helps maintain good health and helps in faster recovery from illness. Zinc compliments the action of vitamin C to help you recover from a cold faster. All the ingredients of our supplement are known to boost immunity and help overall health.

ADDITIONAL INFORMATION

ZINC GLUCONATE 125 MG

Among various other benefits, Newgate Labs' Zinc Gluconate 125 mg supplement can help boost sex drive, improve skin complexion and accelerate the healing of wounds and injuries. Deficiencies in Zinc can lead to hair loss, a decrease in libido, fatigue, and slow wound healing. This supplement could also help palliate deficiencies in this essential mineral. Zinc is necessary for the activity of over 300 enzymes that aid in metabolism, digestion, nerve function and other processes.

Our supplement is recommended for those looking to help boost their immunity and restore overall health and wellness.

MAIN APPLICATION

In addition to helping with protein production and DNA synthesis, Zinc is a crucial element for the development and functioning of immune cells and is fundamental for skin health. Because one of the enzymes necessary for proper taste and smell is dependent on Zinc, a deficiency in this nutrient can reduce one's ability to taste or smell.

ADDITIONAL INFORMATION

improve mood and mental agility.

COGNITIVE COMPLEX

Newgate Labs' Cognitive Complex is a dietary supplement that may help promote brain health, brain energy, memory enhancement and verbal memory. It contains a range of nutrients that can enhance cognitive brain function to support cognition, focus and brain health.

Our supplement contains ginkgo biloba and ginseng that have been formulated to support cognitive performance and memory. Omega-3 may further protect against cognitive decline with advancing age. L-theanine has a potential ability to reduce mental and physical stress, improve cognition and boost mood.

MAIN APPLICATION

Newgate Labs' Cognitive Complex helps support overall health and cognitive wellness. Its bespoke combination of korean ginseng, ginkgo biloba, omega-3, choline and L-theanine makes it a suitable option for those looking to enhance their cognitive health and memory.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule 2 times per day after a meal

NOOTROPICS COGNITIVE ENHANCER

Newgate Labs' Nootropics Cognitive Enhancer supplement may help support brain health and protect the nervous system. Nootropics can improve many aspects of everyday life which include helping boost cognitive performance, decreasing stress as well as optimizing brain function. This supplement may not only boost short-term energy but can also help to optimize long-term energy levels.

Our supplement helps increase productivity as well as improve sleep quality. It also protects the nervous system, maintains normal brain function and decreases mental fatigue and fog, among other benefits.

MAIN APPLICATION

Newgate Labs' Nootropics Cognitive Enhancer may help support those looking to enhance their cognitive health and memory. It helps support brain function by providing better sleep, reducing stress as well as helping improve daily performance and overall energy levels.

ADDITIONAL INFORMATION

NOOTROPICS COGNITIVE ENHANCER

Newgate Labs' 5 HTP 100 mg supplement may help positively affect overall health and wellbeing by improving mental health. It may help in decreasing symptoms of depression, reducing migraine frequency, supporting weight loss and ameliorating sleep quality. 5 HTP can do that by facilitating increased production of serotonin.

The Hydroxytryptophan (or 5 HTP) is an amino acid naturally found in the body that produces serotonin. The 5 HTP found in this supplement may increase the production of serotonin which, in turn, improves mental health and wellbeing.

MAIN APPLICATION

Newgate Labs' 5 HTP 100 mg supplement helps in the production of serotonin in the body. This supplement helps improve mental health, including symptoms of depression, aids in weight loss, improves sleep quality and reduces migraine frequency.

ADDITIONAL INFORMATION

HEMP OIL 1,000 MG

Newgate Labs' Hemp Oil 1,000 mg supplement helps support heart health and boost the body's immune system. Hemp oil is extracted from the hemp plant's seed, a cannabis plant with little to no THC. Hemp seeds are rich in fatty acids, nutrients and valuable bioactive vitamins and minerals, and their oil contains gamma-linoleic acid which may help improve hormone health and reduce symptoms of premenstrual syndrome such as menstrual cramps.

Our Hemp Oil supplement may help support heart health as well as improve hormone health and boost the body's immune system.

MAIN APPLICATION

Hemp oil contains Omega-6 and Omega-3 fatty acids in a ratio of 3:1 which is proposed to be the ideal ratio. Fatty acids are vital for the normal operation of body systems. Hemp oil is also a rich source of gamma linolenic acid, a type of Omega-6 fatty acid. It also eases symptoms of Premenstrual Syndrome (PMS) and boosts immunity.

ADDITIONAL INFORMATION

CBD 5 MG

Newgate Labs' CBD 5 mg supplement helps reduce pain and improve mental health. Cannabidiol (CBD) is a very popular natural remedy and substance found in cannabis and in hemp plants. Among other things, it helps reduce pain (both chronic and short-term) as well as improving sleep quality and managing symptoms of stress and anxiety.

Our supplement may help relieve pain and inflammation, can improve symptoms related to anxiety disorders and stress, and may also be effective for treating seizures related to several health conditions as well as benefiting heart health.

MAIN APPLICATION

CBD oil has been studied for its potential role in easing the symptoms of common health conditions including anxiety, stress and neurological disorders. The substance may also help improve heart health and relieve certain types of pain and inflammations.

ADDITIONAL INFORMATION

CBD 10 MG

Newgate Labs' CBD 10 mg supplement provides a more powerful dosage which may help reduce pain and improve mental health. Cannabidiol (CBD) is a popular natural remedy found in cannabis which can help reduce pain (both chronic and short-term), as well as improve sleep quality and manage stress and anxiety.

Our supplement may benefit heart health in several ways including by reducing blood pressure and improving artery function. Other potential benefits of CBD include sleep improvement, offsetting depression and reducing PTSD symptoms.

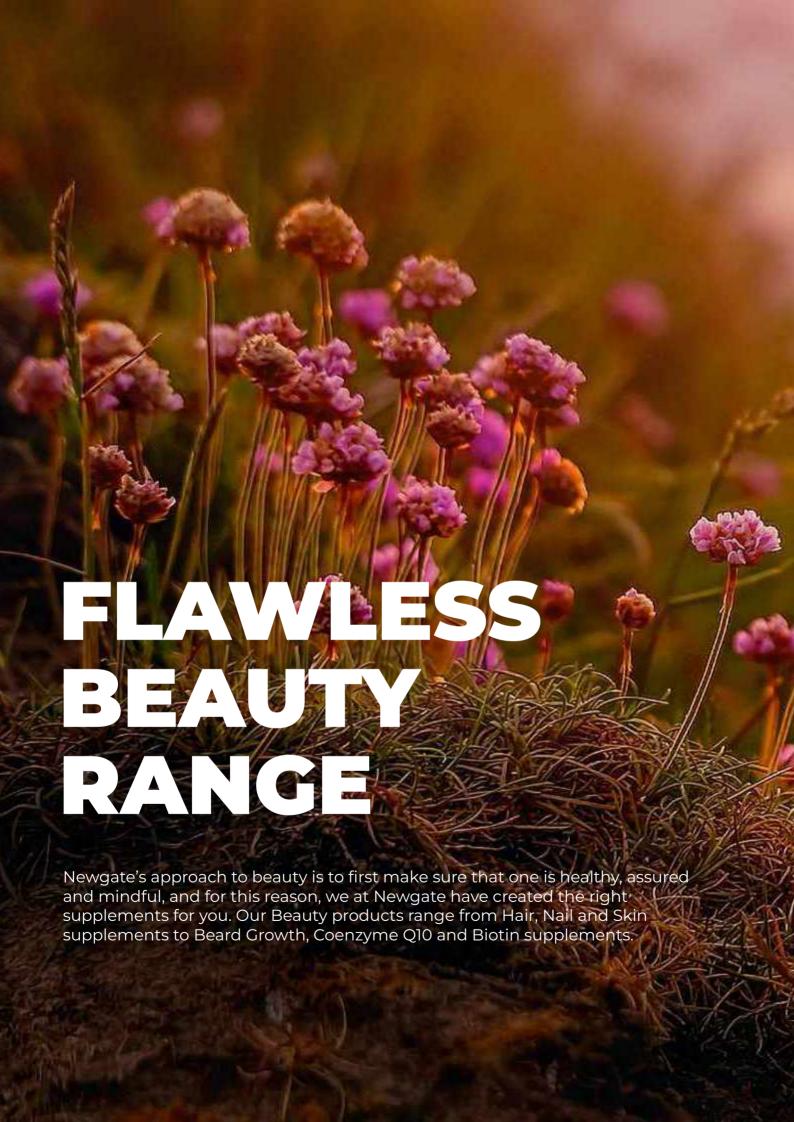

MAIN APPLICATION

Cannabidiol or CBD is one of 113 identified cannabinoids in cannabis plants and accounts for up to 40% of the plant's extract. Among its many benefits, CBD oil can help relieve unmanageable pain, reduce depression and anxiety as well as inhibit symptoms of arthritis.

ADDITIONAL INFORMATION

BEARD GROWTH

Newgate Labs' Beard Growth capsules contain a well-selected blend of vitamins and minerals which focus on the growth of facial hair, among other benefits to the body.

Magnesium helps nourish a healthy beard and protects the skin from calcium build-up; it also improves circulation. Silica is responsible for collagen creation in the body which, in turn, helps with the healthy development of connective tissue, hair follicles and skin. Vitamin B12 complex is essential in the formation of red blood cells; it improves blood flow and nourishes the hair.

MAIN APPLICATION

Our Beard Growth supplement helps in speeding up the hair growth process, nourishing healthy hair, improving blood circulation and protecting and revitalising the skin. With its bespoke combination of vitamin B12, calcium, magnesium and other components, it may help support healthy beard growth.

ADDITIONAL INFORMATION

Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-2 capsules per day with water

TANNING COMPLEX

Newgate Labs' Tanning Complex supplement is specially formulated with natural ingredients that give your tan a boost while supporting healthy skin. It contains certain ingredients known for enhancing and accelerating your tan such as PABA, L-tyrosine and grapeseed extract. It also contains vitamin E, a powerful antioxidant known for protecting and supporting skin health.

Our supplement works best if taken before sun exposure. It provides an effective solution for those who are looking for help accelerating and optimizing their tan while protecting and maintaining skin health.

MAIN APPLICATION

Newgate Labs' Tanning Complex contains a combination of vitamins and components that may help support the tanning of the skin. Its diverse ingredients help accelerate the tanning process. These ingredients include grapeseed extract, PABA and L-Tyrosine amongst others.

ADDITIONAL INFORMATION

HAIR SKIN AND NAILS

Newgate Labs' Hair, Skin and Nails Complex Supplement includes many vitamins, minerals and fatty acids that are important for having a healthy body and skin. Vitamins A, E, and C encourage healthy hair, stronger nails and firmer skin by improving the keratin synthesis process in the body. The fatty acids and Zinc present in this supplement also contribute to the health of the skin.

Our supplement is rich in vitamins A, E, omega-3 and zinc which help make the skin radiant and beautiful as well as encourage healthy hair and stronger nails.

MAIN APPLICATION

Newgate Labs' Hair, Skin and Nails Supplement contains a combination of vitamins and components which help support skin, hair and nail health. It contains vitamins A, C and E, along with zinc and omega-3 which can all help support the growth and strength of hair, skin and nails.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2 tablets per day with water

HAIR SKIN AND NAILS ADVANCED FORMULA

Newgate Labs' Hair, Skin and Nails Advanced Formula supplements are ideal for those struggling with poor skin quality and thin or weak nails and hair.

The vitamin D3 present in our advanced formula is essential for hair growth and is generally lacking in unhealthy hair follicles, while the Zinc can help treat bacterial skin conditions such as bacterial acne. Among other things, the Biotin found in our advanced formula can help improve the quality of weak and brittle nails.

MAIN APPLICATION

Newgate Labs' Hair, Skin and Nails Advanced Formula combines a wide range and variety of vitamins, nutrients and components which can optimise the health of hair, skin and nails. The advanced formula is recommended for those struggling to maintain the health of their hair, skin and nails.

ADDITIONAL INFORMATION

Non Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 tablet per day with food

CO ENZYME Q10

Newgate Labs' Coenzyme Q10 Supplement is a powerful antioxidant that provides the cells with energy and helps reduce the appearance of wrinkles on the skin. It is a substance which is essential for the proper functioning of many organs and chemical reactions in the body. It is produced in the heart, liver, kidney and pancreas.

Our supplement may be used for preventing migraines, slowing down the early stages of Parkinson's disease and lowering blood pressure. It is an ultra-antioxidant which works to reduce wrinkles and energises body cells amongst other benefits.

MAIN APPLICATION

Coenzyme Q10 helps in the production of cellular energy and serves as an antioxidant. Coenzyme Q10 has been shown to help improve heart health, regulate blood sugar, assist in the prevention and treatment of cancer as well as reduce the frequency of migraines.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-2 capsules per day with water

FOLATE 1,000 MICROGRAMS

Folate, also known as vitamin B9, is a nutrient found in dark green leafy vegetables, beans, peas and nuts. Studies have shown that folate supplementation help prevent birth defects of the brain and spine. It works with other vitamins to control levels of homocysteine in the blood which can increase risks of heart and blood vessel disease if they present as too high.

Our supplement may help you benefit from the health advantages of folate which include helping red blood cell formation and healthy cell growth and function.

MAIN APPLICATION

Folate, also known as vitamin B9, is an essential nutrient for the body and can be found in many foods such as dark green leafy vegetables, beans, whole grains as well as eggs. Getting enough folate in your diet may reduce the risk of getting certain types of cancers and can help prevent birth defects in the neural tube.

ADDITIONAL INFORMATION

BIOTIN 5,000 μg

Newgate Labs' Biotin 5,000 µg supplement helps the body metabolize amino acids and carbohydrates. It enables the uptake of glucose by cells, which transport energy to the body. Biotin, part of the vitamin B complex, is necessary in the formation of fatty acids and glucose (the fuel for the body). This water-soluble vitamin is used to support hair, skin, nail, eye and digestive health among others.

Our supplement is a perfect option for those looking for help breaking down fat, proteins and carbs to support a healthy metabolism and hair, skin, nail, eye and digestive health.

MAIN APPLICATION

All B vitamins, including Biotin, help the body metabolize food and turn it into energy. They are essential for healthy skin, hair, nails and eyes and for the normal functioning of the liver and nervous system. During pregnancy, Biotin helps support the embryo's growth and development.

ADDITIONAL INFORMATION

Effective Fat and Carb Breaking Supplement

BIOTIN 10,000 μg

Biotin is one of the B complex vitamins that help the body convert food into energy. While biotin deficiencies are rare, people with a deficiency often show symptoms of hair loss or a scaly red rash, and are therefore recommended to supplement with Biotin.

Newgate Labs' Biotin 10,000 μ g supplement may help regulate metabolism levels, protect the heart, promote brain function, boost immunity power, reduce blood sugar levels, control diabetes, as well as suppress inflammation, and repair tissues and muscles.

MAIN APPLICATION

The body needs biotin to metabolize carbohydrates, fats, and amino acids, the building blocks of protein. Although rare, possible biotin deficiency symptoms include hair loss, red rashes around the eye, nose and mouth area, depression, fatigue, insomnia, and loss of appetite, among others.

ADDITIONAL INFORMATION

HAIR GROWTH FOR MEN

Newgate Labs' Hair Growth for Men contains a well-selected blend of vitamins, minerals and nutrients that address the deficiencies known to decrease hair growth and strength. This supplement is rich in magnesium, a mineral known for supporting follicle hair growth and for preventing calcium buildup on the scalp.

Our supplement is also rich in silica, which is known for improving hair strength, and vitamin B12 complex which improves blood circulation causing the hair to be nourished through needed nutrients. Our supplement also contains Vitamin C, a daily dose of which facilitates hair follicle growth and treat dry hair.

MAIN APPLICATION

Newgate Labs' Hair Growth for Men may help support hair growth and strength. This supplement may also help prevent hair thinning and calcium buildup on the scalp. Our supplement may also help improve blood circulation and revitalizes the skin.

ADDITIONAL INFORMATION

Non Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-2 capsules per day with water

HAIR GROWTH FOR WOMEN

Newgate Labs' Hair Growth for Women supplement is made up of a mix of vitamins, minerals, and nutrients that are ideal for supporting hair growth and strength. Among the ingredients of Newgate's hair growth supplement is vitamin B12 which helps assist in the production of oxygen-rich red blood cells, which feed hair follicles and promote healthy hair growth.

Our supplement also contains biotin which stimulates keratin production in hair and can increase the rate of follicle growth. Biotin also helps in preventing various health problems like hair loss, dandruff, scalp itchiness, etc.

MAIN APPLICATION

Newgate Labs' Hair Growth for Women is ideal for those looking to boost their hair's growth and strength. Our supplement is rich in B vitamins such vitamin B12, B2, and B6. These vitamins can help carry oxygen and nutrients to your scalp, which in turn aids in hair growth.

ADDITIONAL INFORMATION

Non Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-2 capsules per day with water

The body's movement and posture are determined by our joints and bones. Having flexible tendons, dense bones and enough cartilage to minimise the friction is essential in supporting an active lifestyle. An active lifestyle reduces the impact of stress and helps the body process the nutrients much better.

SOFT TISSUE REVITALISER

Newgate Labs' Soft Tissue Revitaliser contains a blend of absorbable collagen peptides and glucosamine which help soothe osteoarthritis and exercise-induced joint and muscle pain as well as delay aging and prevent wrinkles from forming.

This supplement is a great source of amino acids, which are important for regulating glucose, helping build muscle and protecting cells from free radicals. Our Soft Tissue Revitaliser also helps with the regeneration of the body's connective tissues, and supports the elasticity of the skin as well as the absorption of collagen and glucosamine. It also relieves joint, tendon and muscle pain.

MAIN APPLICATION

Newgate Labs' Soft Tissue Revitaliser is an effective supplement for those looking to strengthen their bones and joints. Our bespoke and well-dosed composition containing glucosamine may help soothe osteoarthritis as well as exercise-induced joint and muscle pain.

ADDITIONAL INFORMATION

Non Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-3 tablets per day with water

JOINT REVITALISER

Newgate Labs' Joint Revitaliser and Muscle Builder is composed of a blend of absorbable collagen peptides and glucosamine, which help soothe osteoarthritis and exercise-induced joint and muscle pain. They are also known for helping delay aging and preventing the formation of wrinkles on the body and the face.

Glucosamine is an amino sugar that is naturally produced by the body, and it plays an important role in its biochemical synthesis. Glucosamine is used by the body to make other chemicals that build tendons, ligaments, cartilage, and the fluid that surrounds joints. Its production in the body gradually decreases over time.

MAIN APPLICATION

Our Joint Revitaliser and Muscle Builder supplement can help those looking to regenerate their body's connective tissues, revitalise and increase skin elasticity, increase the absorption of collagen and glucosamine, and relieve joint, tendon and muscle pain.

ADDITIONAL INFORMATION

Non Vegan Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-3 tablets per day with water

JOINT SUPPORT

Newgate Labs' Joint Support supplement contains several ingredients including ginger, glucosamine, chondroitin, turmeric as well as DHA. Combined together, these may help ease joint pain caused by age, weight or the deterioration of joints in athletes.

Glucosamine, chondroitin and turmeric help repair cartilage, increase joint mobility and flexibility, strengthen the joint structure as well as decrease inflammation. Turmeric and ginger may help relieve pain, decrease nausea, decrease markers of inflammation, relieve chronic pain and improve immune function. DHA may reduce arthritis severity and joint damage.

MAIN APPLICATION

Newgate Labs' Joint Support presents a combination of five ingredients, and these are glucosamine, chondroitin, turmeric, DHA, and ginger which offer an optimal joint support. This supplement may help ease joint pain which is caused by age, weight or deterioration of joints in athletes.

ADDITIONAL INFORMATION

COD LIVER OIL

Newgate Labs' Cod Liver Oil supplement helps reduce inflammation and improve bone health. It is extracted from the livers of the Atlantic Cod and is full of essential vitamins and nutrients.

Our supplement is rich in both vitamins A and D which are known for promoting eye, skin, brain and bone health. Vitamin A is a vital nutrient for immune system function, cellular growth, eye health, and reproduction. Because most of the benefits of fish oil are associated with long-term use, you can take Newgate Labs' Cod Liver Oil softgels at any time of day. That said, splitting your supplement into two smaller doses in the morning and at night can help reduce acid reflux.

MAIN APPLICATION

Cod liver oil has been used for centuries as a preventative measure against vitamin D deficiency, also called rickets. Historically, people living in northern Europe have relied on cod liver oil as a vitamin D supplement during the winter months when sunlight is scarce.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 softgel per day with water

OMEGA 3 FISH OIL

Newgate Labs' Omega-3 Fish Oil supplement is a popular product extracted from the tissue of oily fish such as Herring, Tuna, Anchovies and Mackerel. The Omega-3 found in fish oil provides a plethora of health benefits for the brain, heart and overall health and wellness of the body.

Our supplement is a great product for those looking to support and manage heart health, as it may reduce the chances of abnormal heart rhythm and lower blood pressure. This supplement may also help to improve brain and mental health, as well as reducing the likelihood of heart attacks and strokes.

MAIN APPLICATION

Omega-3s contribute to brain and eye development. They fight inflammation and may help prevent heart disease and a decline in brain function. Because fish oil contains lots of Omega-3s, people at risk of these conditions can greatly benefit from taking Newgate Labs' Omega 3 Fish Oil supplement.

ADDITIONAL INFORMATION

OMEGA 3, 6, 9

Newgate Labs' Omega 3,6,9 supplement provides a blend of Omega-3, Omega-6 and Omega-9, an ideal combination to help support overall health and wellbeing.

The Omega-3 in our supplement is a fatty acid found in fish which can help the body fight cardiovascular diseases, and reduce high blood pressure and cholesterol levels. Among the benefits of Omega-6 are its ability to help boost the body's immune system and to support bone development. As for Omega-9, this fatty acid may help reduce the risk of heart disease, decrease inflammation and help improve blood sugar control.

MAIN APPLICATION

Newgate Labs' Omega 3,6,9 supplement is known to be a source of support for those looking to fight cardiovascular disease, decrease cholesterol, high blood pressure levels, boost the immune system, support bone development and improve heart health and cardiac activity.

ADDITIONAL INFORMATION

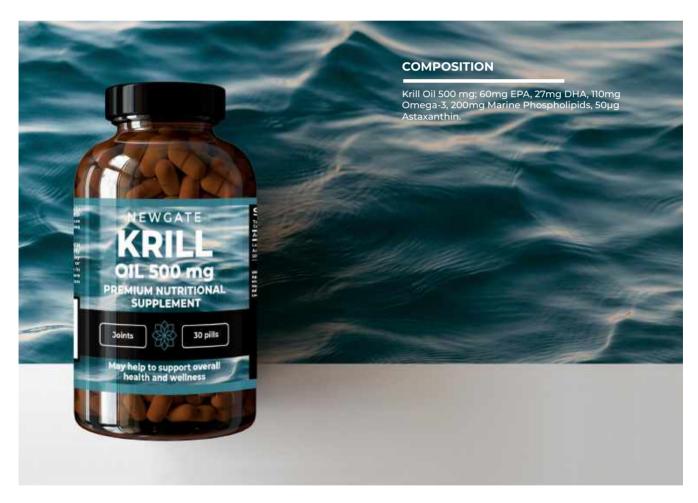

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 capsule per day with water

KRILL OIL 500 MG

Newgate Labs' Krill Oil 500 mg Softgel supplement helps support joint and cardiovascular health. Krill are shrimp-like crustaceans that grow up to 2 inches long and serve as food for whales, fish, seals, and penguins. Krill are a source of omega-3 fatty acids, which the body can only gets from food or supplements. Omega-3s give the body energy and also play an important role in heart health, blood vessels, lungs, and the immune system.

Our supplement helps promote joint, heart, cardiovascular and brain health. This supplement may also help to boost the body's immune system, fight inflammation and promote overall health and wellbeing.

MAIN APPLICATION

Krill oil is rapidly gaining a name for itself as an alternative to fish oil. It may offer unique benefits such as a smaller dosage, antioxidants, sustainable sourcing and fewer side effects. Krill oil is an effective source of Omega-3 fats that offers several science-based benefits.

ADDITIONAL INFORMATION

GLUCOSAMINE SULPHATE 2KCL 500 MG

Newgate Labs' Glucosamine Sulphate 2KCL 500mg supplement may help with joint health by increasing cartilage and fluid that surround the joints. It may also help replenish the amino sugars that are found in the body and relieve pain from arthritis, osteoarthritis, pain in the soft tissue and the temporomandibular jaw joint.

Glucosamine sulfate is a naturally occurring chemical found in the human body which plays an important role in the body's production of cartilage. This supplement is commonly used among athletes and older people as their glucosamine levels are usually low.

MAIN APPLICATION

Newgate Labs' Glucosamine Sulphate 2KCL supplement, which is naturally extracted from marine life (shellfish), supports active lifestyles, promotes weight loss, supports bladder and urinary health, relieves soft tissue and temporomandibular joint pain as well as pain caused by osteoarthritis and arthritis.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2 tablets per day with water

GLUCOSAMINE SULPHATE 2KCL 1,000 MG

Newgate Labs' Glucosamine Sulphate 2KCL 1,000 mg supplement is used to obtain an additional dosage of the glucosamine supplement. Glucosamine sulfate is a natural sugar found in and around the fluid and tissues that cushion your joints. This tissue is called cartilage. Glucosamine is also found in the hard covering of shellfish.

Glucosamine sulphate is widely used by people who suffer from joint pain as a result of osteoarthritis. Glucosamine also helps with rheumatoid arthritis, multiple sclerosis, and many other conditions. Glucosamine may also reduce inflammation, especially when used alongside chondroitin supplements.

MAIN APPLICATION

Our supplement helps support active lifestyles, promote weight loss, support bladder and urinary health, relieve soft tissue and temporomandibular joint pain and reduce pain caused by osteoarthritis and arthritis as it helps develop tissues that are crucial for proper joint function.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2 tablets per day with water

GLUCOSAMINE SULPHATE 2KCL 1,500 MG

Newgate Labs' Glucosamine Sulphate 2KCL 1,500 mg supplement provides the strongest dosage of our supplement which is widely used to help support joint health and relieving joint pain associated with arthritis, osteoarthritis and other bone and joint conditions.

Glucosamine sulfate is a naturally occurring chemical found in the human body which plays an important role in the body's production of cartilage. This supplement is common among the elderly and athletes as their glucosamine levels are usually low. This supplement is also used to treat symptoms of various inflammatory conditions.

MAIN APPLICATION

Glucosamine serves as a building block for a variety of functional molecules in the body. It is recognized for its role in developing and maintaining joints' cartilage. It is also found in some animal and other non-human tissues, including shellfish shells, animal bones, and fungi.

ADDITIONAL INFORMATION

TESTOSTERONE BOOSTER

Newgate Labs' Testosterone Booster supplement naturally increases testosterone (the hormone associated with muscle mass), sexual drive and physical endurance.

After the age of 30, most men's testosterone levels start to decrease leading to a loss in sexual desire, endurance, strength and even to depression. The testosterone in our supplement works to renew virility by balancing hormone levels. This supplement also contains powdered seed of fenugreek, a plant native to India and North Africa used in traditional medicine to treat a variety of ailments, and which is believed to boost testosterone levels.

MAIN APPLICATION

The Testosterone supplement helps build body strength and muscle mass, improve mood, restore libido and increase confidence. Newgate Labs' Testosterone Booster also contains garlic, the components of which could help improve male fertility, enhance testosterone levels, and increase sperm production.

ADDITIONAL INFORMATION

Non-vegan Non-vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1-2 capsules per day with water

CONCEPTION MALE FERTILITY

Newgate Labs' Conception Male Fertility supplement supports the male reproductive system while trying to have a baby. It may also help with male fertility through working to increase healthy sperm supply in the body. This supplement contains a combination of zinc, selenium, vitamin B12 and vitamin D. Zinc is associated with increased sperm count and can help to protect sperm from damaging effects caused by toxins. Selenium is a trace mineral that functions as an antioxidant and has been shown to increase sperm motility. Vitamin B12 can help increase sperm count, enhance sperm motility and reduce sperm DNA damage, while vitamin D has been positively associated to sperm motility.

MAIN APPLICATION

Newgate Labs' Conception Male Fertility supplement is ideal for men looking to support their body's reproductive system when trying to get pregnant Its various ingredients which include zinc, selenium, vitamin D and vitamin B12, may aid with sperm count and sperm motility.

Effective and Natural Supplement for Safe Body Cleansing

DETOX NATURAL BLEND

Newgate Labs' Detox Natural Blend supplement combines the finest and most potent ingredients which work together to safely and effectively detox the body while nourishing it at the same time.

Our supplement contains important natural ingredients like Psyllium Husk, a prebiotic extracted from the seeds of Plantago plants, that acts as a natural stomach bacteria protector. It also helps with bowel movements and decreases LDL (bad cholesterol). It also contains doses of Konjac glucomannan, a root vegetable known to help with weight loss, cholesterol and overall skin health.

MAIN APPLICATION

Newgate Labs' Natural Detox Blend supplement protects stomach bacteria, helps the body detox safely and lowers cholesterol and blood sugar levels. Containing Psyllium Husk and Cranberry extract amongst others, this product may help detox the body from free-radicals.

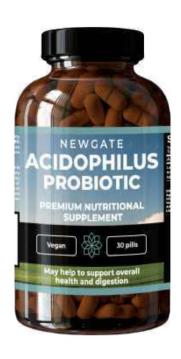

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 1 tablet per day with a meal

ACIDOPHILUS PROBIOTIC

Newgate Labs' Acidophilus Probiotic helps the body restore balance (which is often interrupted by antibiotic treatments, inflammations or microbial intrusions). This is done through the introduction of healthy bacteria that boost the body's immunity and overall well being. Lactobacillus acidophilus is a type of bacteria found in your intestines. It's a member of the Lactobacillus genus of bacteria, and it plays an important role in overall health.

Our supplement is known for producing antimicrobial compounds (which kill and stop the growth of microorganisms) in the body such as acidolin, acidolphilin, lactocin and bacteriocin.

MAIN APPLICATION

The Acidophilus Probiotic supplement supports bacteria naturally formed in the stomach, improves the digestive system's health and enhances the body's immunity. Acidophilus may help reduce cholesterol, prevent diarrhea, and improve symptoms of irritable bowel syndrome, among other things.

TRIBULUS TERRESTRIS

Newgate Labs' Tribulus Terrestris 1,500 mg supplement helps promote muscle gain, improve endurance and boost energy levels. The roots and fruit of the tribulus terrestris plant have been used over the years medically in both traditional Chinese and Indian medicine. Tribulus terrestris is a small leafy plant that grows in many places, including parts of Europe, Asia, Africa and the Middle East. Traditionally, people have used this plant for a variety of potential effects, including to enhance libido, keep the urinary tract healthy and reduce swelling.

Additionally, our supplement helps promote muscle growth, enhance performance, boost energy levels and improve recovery time.

MAIN APPLICATION

Newgate Labs' Tribulus Terrestris supplement may help promote muscle growth, boost energy, improve recovery time and enhance performance. This supplement works to enhance libido and sexual performance. Tribulus terrestris may also work to improve blood sugar control and cholesterol in people with diabetes.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Take 2 capsules upon waking and 2 around 6 hours later. On training days, take 1 of those servings 30 minutes prior to workout

AAKG 500 MG

Newgate Labs' AAKG 500 mg supplement helps improve blood flow and energy production. Arginine Alpha Ketoglutarate (AAKG) helps regulate amino acid synthesis, energy production and combats the development of free radicals. AAKG is a chemical found in the body and it is used for kidney disease, intestinal and stomach disorders, including bacterial infections; liver problems; cataracts; and recurring yeast infections, as well as many other health conditions.

Our supplement is best consumed pre-workout and is very popular among athletes and bodybuilders.

MAIN APPLICATION

Newgate Labs' AAKG supplement helps improve blood flow and circulation as well as muscle activity. It also supports the body's immune system and increases libido. Alpha-ketoglutarate works in many pathways in the body, to help make muscle, and to help heal wounds.

ADDITIONAL INFORMATION

THERMOGENIC FAT BURNER

Newgate Labs' Thermogenic Fat Burner supplement supports weight loss and helps the body burn fat more effectively. It also increases the body's internal core temperature by introducing ingredients which cause a metabolic reaction to increase sweat production. The Capsicum extract present in this supplement can support vision health, reduce anxiety, support bone health and boost immunity.

Our supplement contains natural ingredients designed to boost the body's metabolism, increase fat burning and reduce appetite. It is very popular among athletes and fitness enthusiasts as it may help boost energy and strength.

MAIN APPLICATION

Newgate Labs' Thermogenic Fat Burner supplement may help the body burn fat more efficiently, boost the body's energy levels and promote weight loss through natural ingredients. It is very popular among athletes and fitness enthusiasts as it may help boost energy and strength.

ADDITIONAL INFORMATION

Non Vegan Non Vegetarian Animal Cruelty-Free Take 1 capsule twice per day with water

BETA ALANINE

Newgate Labs' Beta Alanine supplement may help enhance muscular endurance and improve overall health and wellbeing. Beta-alanine is a non-essential amino acid which the body uses to produce carnosine, which helps improve exercise performance. Carnosine is also known for its antioxidant and immune-enhancing properties.

Our supplement is very popular among athletes, bodybuilders and fitness enthusiasts; it helps enhance muscle endurance and reduces exercise fatigue. In fact, beta-alanine is most effective in exercises lasting one to several minutes. It can help reduce fatigue while increasing exercise capacity and muscle endurance.

MAIN APPLICATION

Newgate Labs' Beta Alanine supplement helps enhance muscular endurance and reduces post-exercise fatigue. This supplement may also help boost the body's immune system and improve overall health and wellbeing. Beta-alanine can also help increase exercise volume, which could in turn lead to increases in lean body mass.

capsules twice per day, preferably
30 minutes before your meal.

BCAA PLUS NEW

Newgate Labs' BCAA Plus New supplement may help improve muscle growth and enhance exercise performance. Its branched-chain amino acids (BCAAs) are a group of three essential amino acids (isoleucine, leucine, and valine). "Branched-chain" refers to the chemical structure of BCAAs, which are found in protein-rich foods such as eggs, meat and dairy products.

Our supplement is ideal for those who are looking to increase muscle growth and reduce muscle soreness and post-exercise fatigue, as well as preventing muscle wasting. This product is mostly popular among athletes and bodybuilders.

MAIN APPLICATION

Newgate Labs' BCAA Plus New supplement can enhance muscle growth and exercise performance. It also reduces muscle soreness and post-exercise fatigue. In addition, this supplement may help boost the immune system, thereby improving overall health and wellbeing.

CREATINE (TRI) MALATE 500 MG

Newgate Labs' Creatine (TRI) Malate supplement helps boost athletic performance and increases strength, efficiency and stamina. Creatine, a substance naturally found in the body, helps the muscles produce energy during high-intensity exercise such as heavy lifting.

Our supplement utilizes Creatine Malate, which is one of the highly soluble forms of Creatine, and allows for easy absorption by the body in addition to the elimination of gastric trouble risks. Our Creatine supplement also improves strength, power, high-intensity exercise and performance as well as cardiovascular health.

MAIN APPLICATION

Newgate Labs' Creatine (TRI) Malate helps improve overall athletic performance and muscle growth and helps boost energy levels. This supplement may also work to improve stamina and cardiovascular health, which in turn can help improve high-intensity exercise performance.

ADDITIONAL INFORMATION

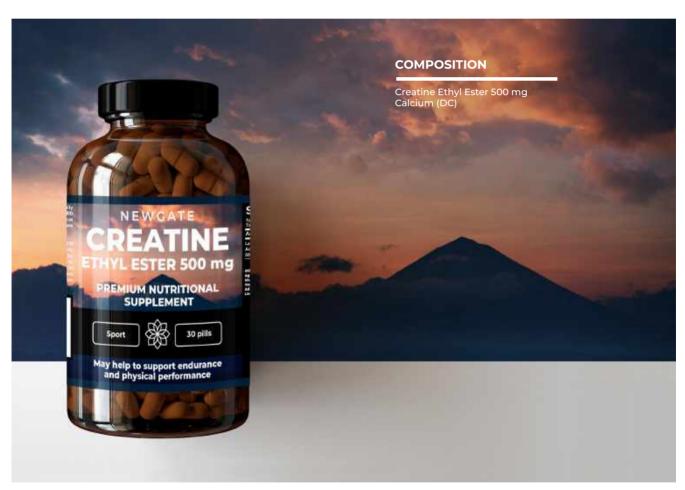

Non Vegan Non Vegetarian Animal Cruelty-Free Made in the United Kingdom Take 2-4 capsules per day with water

CREATINE ETHYL ESTER 500 MG

Newgate Labs' Creatine Ethyl Ester supplement helps boost athletic performance and improves overall health and wellbeing. Creatine is a natural substance that increases the muscle's phosphocreatine store, which helps with the formation of ATP (the key molecule for energy production). The addition of ethyl ester in this supplement helps to improve the absorption of creatine, which can eliminate bloating and dehydration in the body.

Our supplement may also reduce high blood sugar and improve brain function.

MAIN APPLICATION

Newgate Labs' Creatine Ethyl Ester supplement is known to be a dynamic option for those who are looking to boost energy levels, support athletic performance and enhance muscle growth and size. This supplement may also help reduce tiredness and fatigue, provide aid in muscle recovery, reduce high blood sugar and improve brain function.

ADDITIONAL INFORMATION

CREATINE 1,000 MG

Newgate's Creatine supplement is used to help boost energy levels and improve athletic performance. Creatine is formed by three amino acids: L-arginine, glycine, and L-methionine. Creatine is converted by the body to phosphocreatine and is stored within the muscles, where it is used for energy.

Our supplement is excellent for anyone but extremely popular among athletes, fitness enthusiasts and bodybuilders since it helps improve strength, builds muscle and assists with high-intensity training. In fact, creatine can stimulate several key biological processes that lead to increased muscle growth and size.

MAIN APPLICATION

Newgate Labs' Creatine supplement is a great choice for those who are looking for high quality energy and athletic support. This supplement may help improve strength and support muscle growth and size. It may also help reduce tiredness, fatigue and support muscle recovery.
